WURLITZER'S *coast to coast*

BILLBOARD CAMPAIGN WILL REGISTER

1,573,646,000 IMPRESSIONS...

First of a Series in Wurlitzer's Nation-wide Billboard Campaign

11,268 BILLBOARDS, FROM APRIL THROUGH NOVEMBER, WILL PROMOTE WURLITZER PHONOGRAPH MUSIC in 5050 CITIES and TOWNS

It's part of Wurlitzer's Triple-Action Advertising Campaign—the greatest promotional push ever put behind commercial phonograph music.

Over 31,000,000 people a day will see these posters. An additional 325,000,000 impressions will be registered by Wurlitzer's full page, full color advertisements in the SATURDAY EVENING POST, COLLIER'S, LOOK and LIBERTY. And millions more will be stimulated to enjoy Wurlitzer Phonograph Music by Wurlitzer Signs in locations.

Everyone, everywhere will learn to look for the Sign of the Musical Note to identify *America's Favorite Nickel's Worth of Fun* . . . Wurlitzer Phonograph Music.

Every location owner will want a Wurlitzer Phonograph. Every Wurlitzer Factory-Approved Music Merchant will find himself in the most enviable position of his career as he shares with Wurlitzer location owners the fruits of Wurlitzer leadership. The Rudolph Wurlitzer* Company, North Tonawanda, N. Y.

*The Name That Means *Music* to Millions.

Wurlitzer's *"Triple Action"* Advertising Campaign will reach *Everybody...Everywhere*

Take the "Mystery" Out of the Coin Machine Business

By Bill Gersh

For many many more years than probably anyone now engaged in the coin machine industry can remember, there has always been an air of "mystery" maintained for and about this business.

It seems that the average man engaged in the operation, sale or manufacture of coin operated equipment always believed that the one and only fashion in which he could assure himself a continued profitable business for the future was to say nothing, or as little as possible, about his industry.

This has continued on to this very enlightened day. It is now kicking right back into the faces of the members of this industry. There are a great many coinmen who are of the belief that the "mystery" should be taken out of the coin machine industry.

The reason is both logical and simple. First of all, it is this "mystery" which causes the average person to identify this business with something which must be shady and, therefore, it is catalogued in anything but a respectable category. It is this very lack of understanding explanation which creates more and still more trouble for the men now engaged in this business.

The very fact that the press, as well as many legislators, civic leaders and officials thruout the country simply cannot obtain any facts and figures regarding this industry, has caused these men to, many times, exaggerate the facts and, in most cases, not intentionally.

Any newspaper in the country can publish whatever it desires regarding this industry and generally the public will believe it. There are no facts and figures presented to the public to cause them to believe otherwise. Therefore they are more or less forced to think of this business as anything but what it actually is.

There are many leaders in this industry who claim that is one great reason why greater taxation is being smashed down on this business everywhere in the nation. That is further why newspapers and publicity seeking politicos, crusaders, fanatics and hypocrites have been able to use this trade for capturing front page attention to themselves. All because this field does not answer them truthfully. And does not take the "mystery" out of what this industry is really composed of and how it ticks.

The Cash Box urged upon this industry for over three years that it create a "Public Relations Bureau" as a division of a "National Board of Trade" with the sole thought in mind that such "mystery" would once and for all time be eliminated. Elimination of this secretive sort of attitude would eventually place this business on a par (and perhaps far above) other entertainment and merchandising industries.

All the world today knows the great power of the juke box. It knows all about cigarette and other merchandising machines as well as pin games and consoles and slots and penny arcades and ray rifles and practically every single piece of equipment turned out by this industry. There is no earthly reason, then, to maintain an air of dark "mystery" around this business. It's a good business. It's a business where men are striving to earn a livlihood — openly. This attitude of enveloping this business with a cloak of "mystery" is actually harming, not benefitting it, one bit.

The time has come when everyone in the trade realizes that this great division of American business must come to the fore and make itself better known to the public. It must assure the people to whom it caters that it is an industry which, by its economy and efficiency, is definitely leading the way to an era of greater entertainment, service and merchandising.

No longer should a dark sort of suspicious "mystery" surround the coin machine industry. It is up to the members of this trade to help formulate and make active a public relations program which will eliminate such "mystery" and thereby forever wipe away a great deal of stigma which has attached itself to this field.

ORDERS PLACED FOR THE NEW EQUIP'T BREAK ALL RECORDS

Music Leads, Amusement Machines Next, Venders Close Third. Many Distribs Taking Only Sample Orders.

NEW YORK—A survey by *The Cash Box* completed this past week revealed the orders which have already been taken from the many showings of new equipment all over the country have broken all records for machine sales.

As was expected, music machines led the parade by a large majority, with many juke box and music accessory distribs reporting that the orders already taken exceed by far all the business which they formerly did for their lines in pre-war years.

It was the general consensus of opinion among the music distribs that it would take over two years, at the present rate of production, to fill their orders. Tho most of these men are optimistic regarding this production lag, and believe that it will suddenly spring out of its present state of laxity to boom shipments from their factories, they are still of the belief that the orders which they have taken will stand up regardless of how long it will take to fill them.

Next in line, in quantity of equipment purchased, as well as in dollars and cents valuation, were the amusement machines of all types. These include consoles, pinballs, slots, arcade machines, pay tables, etc., etc. These distribs claim that they could today outsell all former pre-war years if equipment was available. They also stated that the average coinman will take whatever they can give him and feel that this will continue to be the fact for sometime to come.

In the amusement machines field a return to conversions was suggested by many of the distribs. These men feel that since the new machines aren't coming off production lines in the quantity they should, that the reconversion manufacturers should get back in action to make over present old type games into new equipment along the lines of the machines they are now producing.

This latter belief seems to be quite prominent among all distrib leaders. They also brought out that some of the new type games wouldn't take too much reconversion effort compared to the effort required to obtain new materials with which to produce these games.

The amusement machine wholesalers did bring out the fact that the games they are now receiving are better than anything ever formerly produced and that the ops are better satisfied with them.

A close third to the amusement machines were the sales of merchandise venders of all types. Leading this field, as usual, were the cigarette machines. The vender men declared that they have a tremendous market before them and that much new blood wants to enter into their division of the business.

They claim that they could dispose of all equipment the manufacturers can ship them. One distributor of small bulk venders claimed that he has orders on hand, with deposits, exceeding anything he has ever sold in all his career in that business. He claims that he is attempting by all means to get as many lines as he possibly can so as to satisfy even part of the large number of orders he now has.

There is very great interest in beverage dispensers. Also in the new electrified hot dog venders and in many other types of machines like washing machines, shoe shine equipment and various others.

The vending machines field needs only production to help clear the way for the biggest sales in all of its history, these men claimed, and further believe that this year has seen the start of a new era for their equipment.

In general, tho, the amount of business, if computed in dollars and cents, would run into a very fabulous amount. But, rather than report such a figure, *The Cash Box* contents itself, in this survey, to state that the numbers of orders in volume as well as on a dollars and cents basis taken for all coin operated equipment, exceeds any sales records ever established by the wholesalers of the coin operated machines industry.

LEADERS BELIEVE BOOM TO BEGIN WITH '47 CONVENTION

CHICAGO — Reports from this city are to the effect that all leaders here believe that the real boom for the coin machine industry will begin with the 1947 convention.

At that time, they claim, the industry will actually return to normal production once again and that many of the machines which have already been presented to the trade will then first hit their full sales stride.

This is attributed to the fact that the production difficulties now being encountered by the coin machine manufacturers will become even more severe this summer rather than ease. The men here state that this can be easily gauged by the fact that some of the largest manufacturers in this area, and thruout the rest of the country as well, are actually laying off help at this time due to the fact they cannot obtain the raw materials necessary to start their production schedules going.

Reports all seem directed at the many strikes which have already been settled and which threw production back over three months and those which are now in effect and others which are on their way and which will, naturally, again throw the industry back many months.

But, most of these men state, they feel that this will not in any serious fashion affect the coin machine industry. They claim that it will continue to give the operators a breathing spell like that which they have enjoyed during the war period and will ease the purchase of new equipment, making it possible for the average operator to continue to deal on a cash basis for a few more years to come.

"The one who will be hardest hit," one leading wholesaler here stated, "will be the distributor. He hasn't any equipment to sell. The few new machines he receives he actually hides and waits until he accumulates at least a small quantity so that he can pass these out at one time without causing it to appear as if he is favoring one customer over another."

One manufacturer here explained, "We realize that whatever we will do for the balance of this year will not even scratch the surface as far as the demand for equipment is concerned. Our best bet is to proceed as easily and carefully as we can so that we will keep everyone in good business condition until the production swing comes about."

A noted operator here had this to say, "Frankly, I don't care whether they produce new machines this year, next year or even three years from now. My route is well set up. The only difficulty we are experiencing is where someone comes along with a new machine and we then get calls from our customers in that neighborhood asking us for new machines. This is very unfair all around for it creates the impression with some of our customers that there must be new machines available and we aren't purchasing them. This is one thing my boys have been fighting and we are asking some of the operators to take it easy in this regard and not place new machines where others are going to have to fight their locations to prove to them that there just isn't any quantity production.

"Then, another thing, the longer we don't get new machines the better off we are financially, at least as far as the operators are concerned. We've placed some very large orders for new equipment. It took a lot of our cash to make the deposits, but, if they hold off for some months to come, and we figure that real production won't become a fact until 1947, it means that we can now accumulate money to pay for the equipment we ordered without dipping into our reserves. From my standpoint, and I believe that I can say the same for other operators, we are of the opinion that new machines are some months away as yet and that this is a good thing for all of us operators."

ARE YOU GETTING RECORDS?

Fill Out

As is well known thruout the automatic music industry, *The Cash Box* stepped to the fore when the very first complaints were being registered by the music machine ops that they weren't getting records from their distributors or the record manufacturers and that they were being cut off from the former lower dealer's prices which they enjoyed, and has since brought into the open, time and time again, the case against the "big four" record manufacturers, namely: Decca, Victor, Columbia and Capitol.

Thruout the trade there has only been praise for the efforts put forth by *The Cash Box* to reach some solution for this problem with the "big four." We have asked time and again that the "big four" arrange a meeting with leading music machine ops from all over the nation and that all cards be laid face open on the table so that there would never again, in the future, arise such hypocrisy as was practiced by the distribution outlets of these manufacturers during the war period.

Just a few weeks ago we again published the fact, due to the many letters we had received, that music machine ops were still not getting the records they ordered and needed from the "big four." Now the time has come to arrange for some sort of a solution to this problem. *The Cash Box* is therefore asking each and every music machine man in the nation to give as complete a detailed report as he can regarding whether he is getting the records he needs at this time.

We further ask that each one of these reports be kept straight to the line and we, in turn, will keep them confidential in the complete interests of everyone of our readers now engaged in the automatic music machine industry.

TAXES GOING UP

Votes Continue to Pour in Urging That "Nat'l Tax Council" be Started Quick

NEW YORK — As reported in last week's issue of *The Cash Box*—"yes" votes—for the immediate creation of a "National Tax Council" were pouring in like a flood — this past week saw this flood continuing to increase with each business day.

The trade definitely wants a "National Tax Council." Not one negative vote was received. In addition to the votes which poured in, came many letters advising *The Cash Box* that plans to hike taxes of coin operated machines of all types were already under way in a great many communities thruout the nation.

The Cash Box has been warning the trade that unless some central agency is created where the industry would have access to complete tax data, precedents, ordinances and license bills, tax experts and legal tax information, that whenever any coinman was suddenly faced with new and higher taxation he would simply be forced to expend money in large quantity without any legal facts to back up his case.

Every community in the nation is today sorely in need of revenue. This revenue can only be obtained by taxation of the businesses in each of these communities. And, most naturally, the coin machine business will be among the very first to feel the weight of the tax hammer.

Many cities which formerly never paid any license fees at all for much of the equipment of this industry are now suddenly forced to pay anywhere from $10 to $50 per juke box and more than that for amusement devices.

In cities where taxation of this type has already been in effect — taxes are going ever higher. Bills and ordinances have already been introduced in many important coin machine centers practically doubling the present license fees. At the same time there are bills pending in many state legislatures which will be brought out to the light of day all over again when these legislatures meet.

There is only one way in which this coin machine industry can protect itself from excessive and inequitable taxation. And that is for the men in this business, who are interested in the future of this trade, to come together to form the nucleus for a "National Tax Council" by first setting up a central bureau where all present tax data will be gathered together. Later, as this bureau begins to function with efficiency, there can be added legal and tax experts who will then be able to bring relief to many coinmen in almost every community in the country.

The time to start is now.

TAXES GOING UP

Notes Continue to Pour in Mining That "Wolf Has Gotcha" by Stocked Quick

EXCLUSIVE TO "THE CASH BOX" RECORD REVIEWS

By DAVE QUIRK
RECORD REVIEW EDITOR OF "THE CASH BOX"

"The House of Blue Lights"
"Hey Mr. Postman"
Ella Mae Morse with Freddie Slack
(Capitol 251)

● Ella Mae Morse, the "Cow Cow Boogie Gal," comes up with two swell blues vocals, "The House of Blue Lights" and "Hey, Mr. Postman." An additional feature to this tiptop disk is the wonderful piano of Freddie Slack. It's a double feature and should be a top money getter in the music boxes all over the country.

"Wet Deck Mama"
"Love Strike Blues"
Champion Jack Dupree
(Davis 5108)

● Jack Dupree displays a nice piano in waxings of two blues numbers. "Wet Deck Mama" and "Love Strike Blues." They're good for the race spots and might even click in other locales where the fans like a hot piano.

"Polly Wolly Woddle"
"The Old Square Dance"
The Korn Kobblers
(Majestic 1036)

● The Korn Kobblers have won a lot of fame in clubs and on the radio for their zany way of treating songs and their waxing of "Polly Wolly Doodle" and "The Old Square Dance" will add to it. The combination really jazzes up the barnyard tunes and rip them out with belting vocals. For novelty they're tops and this disk is sure to get plenty of play in a lot of sections.

"It Take a Long, Tall, Brown Skin Gal"
"St. Louis Blues"
Louis Prima and His Orch.
(Majestic 1037)

● Louis Prima and his boys really do a bangup job with "It Takes a Long, Tall, Brown Skin Gal," with Louis heading the vocal arrangement in his customary rasping but pleasing style. There's plenty of swing to the number the way the Prima crew does it and it should be a favorite most everywhere, with the probable exception of the quiet spots. On the backing, the Prima band gets hot and lowdown and beat out the famous blues number for all it's worth.

SLEEPER OF THE WEEK

"In Love in Vain"
Art Newman Orch. with Louanne Hogan
(Musicraft 355)

● Every once in a while a tune comes along that is slow to catch on but suddenly its haunting melody hits the wiseguys of the music business and it becomes a smash hit. That's the story with "In Love in Vain," and Louanne Hogan's singing of the number is right in keeping with the mood of the song. The gal has a nice voice and smooth phrasing that help her put this recording across in great style. It's a natural for spots catering to romancers as well as dinner places that specialize in soft music for the customers. Art Newman's Orchestra does a nice job with the musical background in some plain and fancy arrangements. The backing is another popular tune, "All Through the Day," with the Hogan gal again doing the vocal. The disk should click off plenty of nickels in the jukes.

"There's No One But You"
"I Don't Know Enough About You"
Mills Brothers
(Decca 18834)

● The stellar singing group of the Mills Brothers is slated for another hit with its latest recording, "There's No One But You" and "I Don't Know Enough About You." Both are in ballad style and with the usual harmony arrangement that has made the group famous. The beer places everywhere will cash in on this disk. That's for sure.

"There's Good Blues Tonight"
"In Love In Vain"
Les Brown Orch.
(Columbia 36972)

● Les Brown's band has been consistently good and on "There's Good Blues Tonight" maintains that reputation with as nice an arrangement as heard in a long time. Doris Day does well right by the lyrics. On the backing the Brown crew hits a top ballad pace with "In Love in Vain," the tune we've picked to hit hit parades in no time. Jack Haskell does a nice vocal.

"Let's Walk"
"A Ghost of a Chance"
Artie Shaw Orch.
(Musicraft 357)

● Artie Shaw is still one of our top bandleaders and his new crew is every bit as good as any other he batoned for. Its waxing of "Pet's Walk," a pure instrumental, is right in the Shaw groove, with plenty swing and zing to it. On the backing, Hal Stevens does the vocal of that oldie, "A Ghost of a Chance," and the boy is better than all right. The Shaw fans will go for both sides and the coin boxes serving them will reap plenty of profit.

"Tear Stains on My Letter"
"Oh Why"
Jimmy Walker and His Western Stars
(Coast 224)

● For plaintive cowboy tunes, Jimmy Walker is just what the doctor ordered and on this disk he warbles two cowboy torchies, "Tear Stains on My Letter" and "Oh Why." The locales that go for this sort of thing will get a bargain with this ebony pancake.

"Straighten Him Out"
"Young Man's Blue"
Wynonie "Blues" Harris
(Apollo 360)

● Wynonie Harris comes up with two blues numbers with lyrics a teeny bit on the purple side, "Straighten Him Out" and "Young Man's Blue." Maybe we're too squeamish about such things. At any rate they're good blues numbers, with Jack McVea and his All Stars doing a nice job musically on both sides.

"Ya Ha Ha"
"Ding Dong Greeney"
Slim Gaillard Trio
(4-Star 1078)

● The Gaillard Trio is a good small combo and when it does a novelty, like "Ya Ha Ha," you can bank on it being good. The lyrics are really jive double talk but the tune is jazzy and okay for the hot jazz centers. The backing is another number in the same vein, "Ding Dong Greeney." The Gaillard Trio does a swell job instrumentally and Slim Gaillard's vocal is more than just okay.

C.M.I. BLUE BOOK

FOREWORD Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The C.M.I. Blue Book can only feature the market prices as they are quoted. The C.M.I. Blue Book acts exactly the same as the market quotation board at the Stock Exchange—posting the prices as they are quoted for the past week, regardless of how much they may seem to be out of line. Some prices do not change for months. The C.M.I. Blue Book, rather than show no price, retains the last known quotations for such equipment so that the subscriber at least has the last known prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth $150.00 whereas someone on the East Coast may think it worth but $75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The C.M.I. Blue Book reports each quotation exactly as it is made and depends on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

METHOD The C.M.I. Blue Book should be read as follows: First price listed is lowest price for the week: Second price listed is highest price. Where only one price appears this should be considered lowest price.

IMPORTANT Machines underlined mean these were most active in trading the past week.

CODE Check this code carefully. Become acquainted with each one of the code numbers and what they signify. These code numbers appear in front of the name of each machine.

- **1** MEANS PRICE WENT UP.
- **2** MEANS PRICE WENT DOWN.
- **3** MEANS MACHINE JUST ADDED TO LIST.
- **4** MEANS PRICES WENT UP AND DOWN DURING THE PAST WEEK.
- **5** MEANS PRICES REMAINED SAME AS IN LAST PRICE LISTS.
- **6** MEANS NO PRICES QUOTED FOR PAST TWO WEEKS.
- **7** MEANS NO PRICES QUOTED FOR PAST THREE WEEKS.
- **XX** MEANS NO PRICES QUOTED FOR MANY WEEKS — PRICE SHOWN IS LAST KNOWN QUOTATION.

New MULTI-PROFITS with MEASURED MUSIC*

PERSONAL MUSIC
6 MINUTES OF CONTINUOUS MUSIC
The Equivalent of Two Complete Records
5c THIS MACHINE CAN BE HEARD IN YOUR IMMEDIATE AREA ONLY 5c

an INSTANTANEOUS, ALL-ROUND HIT

Here's your opportunity—MEASURED MUSIC can multiply your present music box take; instead of the ordinary profits from one box, MEASURED MUSIC gives you additional revenue from each MEASURED MUSIC unit in your location. Each table, booth and counter space is a money-maker. The music is heard only by the people in the immediate vicinity of the box. When other customers want to listen they have to drop a coin in the convenient unit. This sensational music system is a big money-maker. *It offers you these distinct advantages:*

1. Low initial cost.
2. Lower upkeep.
3. Minimum servicing.

4. Overcomes proprietors' and customers' objections to loud music. Measured Music is low volume music.
5. Measured Music studios require no attendant. There are no title strips to change or install.

COIN INDUSTRY FEATURED ON BUSINESS PAGES OF N. Y. 'TIMES'

NEW YORK — A comprehensive market study of coin machine industrial trends appeared this past week in the business section of "The New York Times."

More important than the production figures and trade predictions made in this article was the fact that the story was prominently displayed among news features of other industrial fields. It was an important advance for this industry in gaining deserved recognition from all the business world.

Calling the attention of businessmen to the growth and development of the coin machine industry, "The New York Times" reported, "Indicative of the interest in the (coin machine) business is the report that twenty-six companies have announced their intention to enter the coin-operated machine field. Some are new concerns with new items, while others have been in the manufacturing industry and are seeking to diversify lines of goods."

The Times, basing their statements on those made by leaders of this industry, foresaw a tremendous production boom in coin-operated equipment.

"(Coin machine) Manufacturers are still confronted with shortages of essential parts and raw materials and uncertainty was expressed concerning future supplies," The Times article declared, "but," it continued, "when supplies again return to trade channels and production lines can be operated uninterruptedly, spokesmen look for an output of 1,500,000 coin-operated machines in the first year of normal production. Statements believed conservative by the trade call for 'normal output in 1947'."

The lengthy article reported the prophecy of coin machine leaders that this industry would expand tremendously with its emergence in the direction of the automatic merchandising field.

"Emergence of the coin-operated machine industry from the war period as an important factor in the retail trade field appears imminent,"

MANGAN WILL JUDGE V. F. W. ESSAY CONTEST

CHICAGO—James Mangan, of the firm of Mangan & Eckland, this city, has been selected as one of the three judges in the Veterans' of Foreign Wars Essay Contest participated in by America's high school students, it was announced here recently. The subject of the essay competition is "What Can I Do For My Country?" This national contest is held annually and in the State of Illinois is sponsored by the Chicago Daily News. First prize is $1000 and second $500.

The other judges are David Smart, publisher and owner of Coronet, Esquire, and Apparel Arts, and Arthur E. Hall, Circulation Manager of the Chicago Daily News.

For five years Mangan was a dollar-a-year man in the U. S. Department of Labor, Co-chairman of Special Events Division of U. S. Treasury, and Chairman of the War Committee, Society of Typographic Arts. He is well known for his patriotic writings and speeches.

"SHINE-A-MINIT" Gets PM Plug

NEW YORK—"Shine-A-Minit," new coin operated shoe shining machine being manufactured by Coin-Arts Industries of Milwaukee was given a plug when the unit was described in PM, daily newsaper here, under the caption, "It's-A-Wonderful-Century-Dep't." PM credited Business Week, the industrial news magazine, as its source of information about the product.

That is true in the world of

AUTOMATIC MUSIC

● Names are legend in the history of American Industry. They are the names of men who have created the ideas and the products around which the industries have been built.

Those same names have become the names of manufacturing concerns which are the foundation stones of the industries they serve.

The same is true in the world of automatic music. One man, and his associates, recognized a need—pioneered an instrument by which the need could be satisfied—and sold the satisfying of this need to businessmen to build an industry.

The need was good music for everyone. The instrument was the first Electric automatic phonograph—which had all of the basic characteristics it has today. And the industry was built around the coin-operation of the instrument.

That man and his associates are still together. They were the pioneers and the policy-makers—the foundation stones. They are yet the creators and producers of the improvements and the innovations.

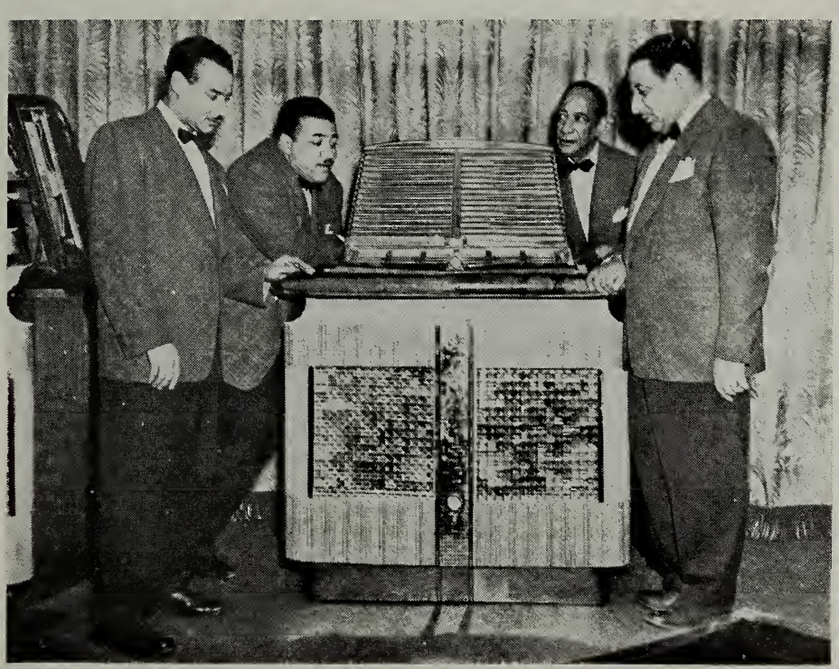
ADD THEIR PRAISE TO VALUE OF JUKES



KANSAS CITY, KANS.—The famed "Mills Brothers," long among those at the top in juke box popularity, added their praise of the industry to the many bouquets already given by artists who credit the juke box as providing a most important rung in their achieving nation-wide popularity. They are pictured here listening to one of their own discs on the new Aireon phonograph.

10 YEAR OLD ITEM ON SLOTS MAKES NEWS AGAIN

CHILLICOTHE, O.—If the old adage about history repeating itself failed to run true in every other field, its backers could still point to the slot issue and give out with an "I told you so."

Witness the little item which appeared here recently in The Gazette, local newspaper here. In its column "Looking Backward," which reprints items included from its front pages of ten years ago, was the bit: "Slot machines disappeared from Ross County over the week end, it was announced by the prosecuting attorney.

LOCATIONS SQUAWK AT 10¢ WIRED MUSIC PLAY

Claim Too Many Arguments Result from Girl's Demand for "Extra Nickel" to Play Tune. Ask that 5¢ Play Continue.

Special to The Cash Box

NEW YORK — Investigation among location owners where there are wired telephone music installations revealed that those spots, where 10c per tune has been placed into effect, are against the wired music getting this dime.

These location owners report that too many arguments have resulted with the price at 10c. They claim that the girl operators "on the other end of the system" are always asking for that "extra nickel" and, especially when a customer has a snootful, a real argument results.

One Newark, N. J. location owner reported, "I've walked up to the machine myself, many times, and inserted the extra nickel so that the argument wouldn't continue."

He also said, "I don't like it. The customers don't like it. It's nice to have the girl's voice come out of the machine repeating the tune and all that sort of thing, but, when she asks for the extra nickel the customers get mad. They can get the same tune for 5c from any juke box. Why should this kind of music be 10c?"

Another location owner over in New Jersey had the following to say, "I don't see why this unit has to get 10c for a record. We work on volume here and all business works on volume. I believe that the juke box operators are better off getting 5c a play and continuing on that basis for they are going to get more plays.

"The customer doesn't care too much about a nickel. But, he doesn't like the idea of putting in an extra nickel or a dime when he wants a record played. A dime buys him another beer. He's used to the nickel in the first place.

"My operator tells me that he'll be better off if he gets only half the number of plays for a dime a shot. I think he's wrong. I'm riding along with him because he's a friend of mine but I don't believe this is going to work out from what I've already seen and heard in this place."

In contrast is the report of one spot here where the owner stated, "It's okay with me if the machine gets a dime instead of a nickel. After all, it can play only so many records a day. If the customers here want to play it let them go ahead and put a dime in the machine. The girl's talking to them and she should be able to take care of any arguments that might come up about the 'extra nickel' she wants for playing the record."

In the meantime the wired music ops in this area are interested in getting 10c per record. They claim that only by obtaining the dime from each play will they able to make it pay off They cite the higher cost of records, supplies and especially the salaries being paid to good telephone music operators these days as their reason why they must get 10c per tune.

One of these ops said, "Where the location owner squalks too much we'll just have to pull our telephone music system. It doesn't pay us these days to sell wired music at 5c per record. In fact, we don't believe it can be done. It might be possible if we adopted *The Cash Box* suggestion of 70%-30% commission basis."

He also claims, "Front money is a hard thing to get in this territory without having the other boys demand it, too. The competition would rock us back on our heels if we tried it by ourselves. Therefore the only way out for us to get the money we need to continue operating profitably is the 10c a record play."

For over thirty years, ABT has been manufacturing coin-operated machines. Each and every product bearing our name is backed by knowledge comparable to any in the industry. Avail yourself of better products which are the results of long study. Experienee always counts.

WILL DIRECT SALES OF COIN METERED WASHING MACHINES KILL COIN OPERATED LAUNDRIES?

NEW YORK—The opening of coin operated laundry stores, now in progress thruout the nation, has aroused much enthusiasm, especially among newcomers to the coin machine field.

These men and women believe that in the laundry stores, where the washing machines are coin operated and they charge 25c for so many pounds or for so much time use of the machines, opens a new path to a steady business.

The further fact is that the average newcomer who enters into this coin operated laundry business usually searches out the poorer neighborhoods where people will bring bags of laundry to the store, have it washed while attending to other business, and then call for the bag of washed clothing and carry it home.

It has also been said that even in more prosperous neighborhoods this will prove profitable in view of the fact that the average laundry won't work as cheaply and furthermore because of lack of laundresses to do the washing. This sounds fine in the small apartment sections.

There enters into the picture just one flaw. That is, that as washing machines again become available in quantity, the coin operated time meters which are being produced will also become available.

There are distributors in the coin machine industry, as well as in the electrical appliance business, who look upon coin operated meters as the answer to larger and better volume sales.

They figure that wherever a coin operated laundry store proves profitable will be a good neighborhood for them to send in salesmen who will actually give washing machines to the housekeepers and have these families pay for the machine by the insertion of quarters as they use the washer. This has already been proved, especially in apartment buildings. In this way, there is no doubt, many sales will be made and the lady of the house will, in the end, wind up owning her own washing machine.

These men also explain that they can get all the financing they need from local finance firms and banks to back the sales of washing machines with coin meters on them to homes.

Therefore, these men stated, the coin metered washing machine will literally wipe out the greater majority of coin operated laundry stores. They also believe that the only thing which these stores are doing is to educate the housewife to the use of coin metered washers.

At present there are a number of distributors in this and other areas in the country who are making deals with manufacturers of washing machines, and will attach meters to the machines themselves, so as to arrange for direct sales to the homes in their territories. They will have these sales backed up by their banks.

WILL HOT DOG VENDERS TEACH LOCATIONS TO INSTALL OWN EQUIPT?

NEW YORK—One of the new businesses which seems to be attracting much attention, but mostly from new blood, is that of the new automatic hot dog vending machines.

These units have received more newspaper space than any other new idea in vending machines which has been proposed in the past 25 years.

Even the advent of the idea that eventually there might be frozen food venders hasn't gained as much publicity in the press of the nation as have the new venders which will deliver a completely broiled hot dog in a roll on the insertion of a dime.

Already one of the largest vending machine chains in the country, Automatic Canteen Company of America, in conjunction with the General Electric Company, who developed and are producing the Canteen hot dog vending machine, are preparing to place these in thousands of locations thruout the country.

Other machines of like ilk have already been announced. Many of the large merchandise machine operators are seriously thinking of arranging operations in taverns and other of their locations.

This brings to mind the same turmoil created by the candy machines that went into the theatres many years ago — and simply educated the theatre owners, where the profits were good, to installing counters with pretty girls selling a much larger variety of candy at a better profit to them — than could the machines. The big fact remains that it was the machines that educated them to the fact that candy vending in theatres was a profitable business.

Now the interest has switched to the hot dog venders and already some of the larger factories, engaged in the manufacture of radios and other products, noting GE's entrance into this field, are also seriously considering the manufacture of hot dog machines. One large tube and radio manufacturer has already indicated that he is entering into this business.

One noted merchandise machine operator believes that his locations, or at least a good majority of them, will sell more than the 180 capacity of the hot dog venders each day. This means (if even the 180 are sold) a gross profit of $18 per day per machine. And since the most commission that would be paid would be about 10 per cent — the location owner would receive a return of $1.80 per day.

Of course, all this is all based on the fact that the machines will work perfectly. That there will be no smoke and smells and other problems to contend with which have buried other such types of venders in the long forgotten past.

Would the average location owner be content to take $1.80 per day — or even a little better if the operator can afford to give it to him — for the sale of 180 hot dogs and rolls at 10c each from a machine in his place?

There are certain merchandise machine ops who believe that the hot dog vender will simply educate the location owner to installing his own equipment and selling hot dogs where his profit will be about $10 of the $18 each day.

At the same time, these experienced merchandisers explain, the average location owner, now that he has installed his own equipment, will arrange for no smoke or smudge or smell and will see to it that he plugs the sale of these hot dogs so that there will be more than $10 profit in it for him each day.

In short, it is the belief of those merchandise machine experts who have been in the field for sometime, that the hot dog vender is going to educate a great number of the successful locations to equipping themselves so that they can sell this very edible American food themselves — without the use of a machine where they give away the major share of the profits.

MORE PARKING METERS

SALEM, N. J.—That old, familiar question, "What can be done to eliminate the parking problem in the business section here?" — cropped up again at a City Council meeting here this past week. When everyone had his say it was finally decided that parking meters would have solved the problem. The only trouble was that the Council in a previous meeting had voted against parking meters, an action prompted by complaints from many merchants. Now this city is wondering what to do.

PHILADELPHIA, PA.—The "Committee of Seventy" recently urged the city to install parking meters wherever cars are left in large numbers, and frankly confessed that chief reason for the proposal was the estimated $985,000 a year the meters would bring.

FREIGHT RATES MAY RISE

WASHINGTON, D. C.—Of interest to coinmen in all phases of the industry is the petition made last week by rail carriers for a general 25 per cent increase in freight rates.

The application for the price rise was made to the Interstate Commerce Commission. If the application is approved, observers here foresee the additional freight charges being carried over thru every channel of the cointrade on new and used equipment shipped by rail, causing a noticeable rise in costs to be paid by operators.

PATENT OFFICE TO SPEED UP

WASHINGTON, D. C.—Coinmen who have spent years awaiting action on patent applications will be glad to learn that plans are now being considered to reorganize the U. S. Patent Department to speed up decisions

The reorganization, to be handled by the Department of Commerce and the Bureau of the Budget, already has under advisement three recommendations, including: 1) Centralization of the patent office, 2) Expansion of the examining staff, 3) Simplification of regulations

LADY SCRIBE WRITES OF SLOTS

ST. PAUL, MINN.—Yodee Johnson, women's page writer for the "Dispatch" of this city, told her readers of her recent visit to a gambling casino in Reno, Nevada. Her description was almost poetic.

"There were slot machines," she reported, "row after row of them from 5-cent ones to dollar ones. All ages, all classes, many nationalities and many temperatments were crowded there together by one common passion — the thrill of Chance — the smile of Lady Luck.

TEST CASE ON SLOT BAN

COLFAX, IDA. — A test case in Idaho's Supreme Court looms for the near future as a result of the Whitman County prosecutor's decision to force slots out of this territory.

The prosecutor declared that state laws specifically prohibit the operation of slots even tho the state takes a cut of their profits. He added the only possible "loophole" for the machines is a provision in the Steele Act, which he said "seems to legalize" the operation of slots in clubs having a bar license.

It remains for a supreme court decision to clarify this "discrepancy," the prosecutor said; however, in the meanwhile, he will prosecute clubs continuing operation of the devices.

O. K. Gov't Stamp Venders

MILFORD, DEL.—Sharp criticism of the government's announced decision to place its own stamp vending machines in post offices thruout the nation was made here recently in the editorial columns of "The Chronicle," local newspaper.

Declaring that "Competition is as foreign to a government bureau as the bureaucrat is to foreign industry," the editor went on to crack that had there been an equitable competitor to the government, "stamp vending machines would have been installed twenty years ago."

The article went on to criticize the government as lacking interest in technical developments which are the very lifeblood necessary to the successful operation of private industry.

JUKES PRAISED FOR TECHNICAL TRIUMPHS

CLEVELAND, O. — "Die Casting," trade publication of the die casting industry, doffed its editorial cap in praise to the coin machine industry for its engineering triumphs in the use of die cast parts on equipment.

Devoting a lengthy article to the technical composition of juke boxes, the magazine said of the instrument: "Although most often associated with youth, dancing and entertainment, (the juke box) has very little frivolity in its construction. On the contrary, the equipment involves extremely complex mechanism calling for sound engineering design — automatic record players are a big business with large investments in equipment and engineering talent."

Taking the Seeburg "Symphonola" as a typical example of juke box construction, the article devoted several of its pages to a detailed analysis of the engineering principles used in the manufacture of the machine.

The appearance of this article gives a very definite indication of the increasing respect this industry is gathering for itself thru its mechanical and electrical developments. Technical magazines, recognizing that the industry has emerged from the war years as a fitting, adult member in the society of big business, are anxious to report the scientific achievements thru which coin machine engineers are climbing to national prominence.

BILL GOETZ URGES MUSIC OPS GET $10 FRONT MONEY FIRST

WM. A. (BILL) GOETZ

NEW YORK—Wm. A. (Bill) Goetz of Capitol Automatic Music Co., this city, one of the veteran music ops of the nation, urges all music machine coinmen to immediately get $10 front money from everyone of their juke boxes and to then split the balance on a 50%/50% basis.

Goetz is today arranging this plan with most of his locations. Prior to the war when competition became extremely keen among the music ops and all were obtaining the old 50%/50% commission basis, his firm jumped to $3 "off the top" and then to $5 front money and are now gradually raising their locations to $10 from the gross collections prior to splitting the balance.

Goetz says to America's music ops, "You are paying more for labor, records and materials than ever before, but are still getting the same old nickel for a song. Furthermore, since all locations are taking in more money than they ever did, they are not losing much, if anything, when you start this new commission basis with them.

"Figure it out; if you have only 50 phonos and pay out 50% over $3 or $5 or even 50% over $10 you will increase your returns from $75 to $200 weekly, without materially increasing your expenses. Put this extra money aside so that when the new machines come out you will not be stranded, but will have the cash to make replacements."

Goetz believes that if all coinmen will organize themselves into groups in all parts of the country that they can very easily put this plan over.

He claims, too, that the distribs and the manufacturers will be more than happy to work with the juke box ops for this will mean a better, more stable and more financially powerful group of coinmen they will then have to sell to for the years to come.

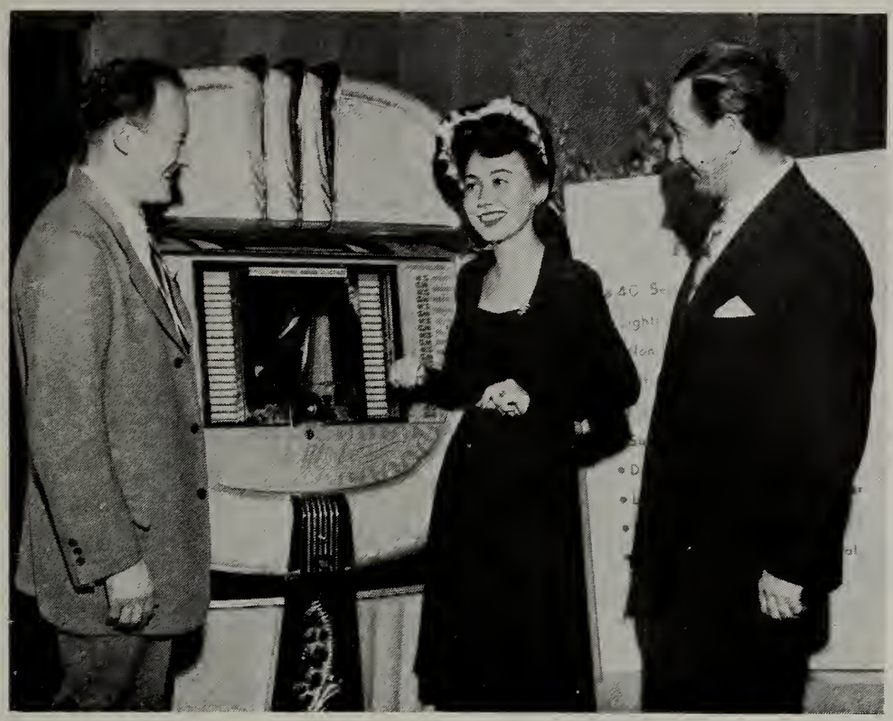
INVITES COINMEN TO OHIO MUSIC MEET

JACK COHEN

CLEVELAND ,O.—Jack Cohen, president of the Phonograph Merchants Association of this city and Chairman of the Banquet Committee for the Ohio State phono organization is urging all music coinmen in the country to make arrangements to be present at this state's annual automatic music convention in this city at the Hotel Carter on May 1.

Jack reports, "There is no longer any doubt that we are going to have one of the finest programs in the nation. Every music machine operator will want to be present to hear the talks which are going to be given as well as listen and see the grand entertainment which has been outlined for him. We suggest that every music man who can possibly get away for this one day make it his business to meet with us at the Hotel Carter."

CONNIE HAINES SINGS WITH AMI



NEW YORK — Gorgeous Connie Haines, currently wowing the crowds at the famed La Martinique nite spot here, listening to her new Mercury recording, "California Sunbeam" a really hot boogie tune while publishers Johnny and Chuck Greene of Stept, Inc., smile away as the new AMI in Runyon Sales Company showrooms here plays it for her.

Barnet (Shugy) Sugerman of Runyon Sales reports, "We've never yet seen anyone as gorgeous as Connie Haines in our showrooms and, when she sings — she's the very last word for popping those nickels into juke boxes."

Connie Haines says, "Tell all the juke box boys — my best love to them — and a kiss goes to everyone of the big buyers of my new recording, 'California Sunbeam'."

NAMED VICE-PRESIDENT IN CHARGE OF SALES

BEN LUTSKE

CHICAGO—Ben Lutske, well known to many coinmen, has just been named Vice-President in charge of sales by the Daval Products Corp., this city.

According to Al. S. Douglis, president of the firm, "Ben has had a great deal of experience prior to and during the wartime period in the industry. He has won a great many coin machine friends and we believe that in his new position with us he will advance even more rapidly than before. We also feel that all of Ben's friends will be happy to hear of this appointment."

MEET NEW DU GRENIER PLANT EXECS

NEW YORK—DuGrenier plant executives get together to confer on speeding production of their new "Challenger" cigaret machine.

Left to right: Wm. Hope, time study and methods engineer; Earl Keppler, production expediter; Paul Kyburg, assistant general manager; Bip Glassgold, vice-president and general manager; Milton Peer, comptroller and George Nelson, assistant purchasing agent.

"From the smiles on their faces," "Bip" Glassgold reports, "anyone can see that real progress is being made and that very soon cigarette machine operators all over the country will get what they need."

WILL EXPORT GAMES TO FAR EAST

LOS ANGELES — The demand for coin machines on the world market was pointedly demonstrated when Louis I. Raisin, president of the American Exporters Corporation, this city, announced last week that the firm would set up a special division to handle coin operated equipment for export to the Far East.

"We are seeking exclusive representations among American coin machine manufacturers of games, phonos, slots, and all allied equipment," declared Raisin, who operated one of the largest exporting firms thruout China, Malaya, Singapore and the Philippines prior to Pearl Harbor.

"The coin machine market in the Far East has not even been scratched," Raisin went on to say. "What few machines that were there before Pearl Harbor served an excellent purpose as samples of what American coinmen could produce. It created a tremendous demand — and the demand is still there. Our correspondents tell us it is greater now than ever before," Raisin claims.

"We are going to bring the coin machine industry in all its phases back to the Far East," Raisin continued. "We know the potentiality of the present Far Eastern market, and we know it would be well worth the while of any manufacturer to consider it as a fine sales territory."

"Happily, I can report that a great deal of our own sales work in the **Far East has already** been accomplished. Motion pictures and the United States Army have done an excellent job of instilling our customers with an eager receptiveness to coin operated equipment. It may be that they have yet to see the latest machines, but they're waiting for them nonetheless."

Raisin said he was planning a trip to the Far East in the near future. There he will reorganize his distribu- quantity shipments expected to be- tion outlets to pave the way for gin as soon as arrangements are com- pleted with manufacturers in this country.

Normal World Trade Soon

NEW YORK—August Maffrey, vice president of the Export Import Bank, predicted this past week that within the next six months there would be a very substantial return to private trading thruout all Western Europe.

Maffrey made his statement at a meeting of world traders sponsored by the Commerce and Industry Association.

Ships Will Carry Slots

LOS ANGELES—Word is being circulated here that a fleet of sea going vessels is being equipped to sail from local ports here outfitted with slot machines and gaming rooms for the entertainment of passengers.

OP SEES NEW JUKES WITH ADAPTORS FOR 2 SIZE DISCS

NEW YORK—Fred Salerno, youthful head of Roxy Automatic Music Co., juke box operators in this city, predicted this past week that the time is not far off when music machine manufacturers will be making their equipment adaptable to both ten and twelve inch discs.

"In the past few years," Salerno wrote in a letter to *The Cash Box*, "I have noted an increasing interest on the part of juke box customers in classical and semi-classical records. Especially does this hold true whenever there's a hit musical on Broadway which features this type of music."

MAKES FLYING VISIT TO BLACKWELL

DENVER, COLO. — Continuing the tradition set for speed R. R. (Rudy) Greenbaum, Vice-President and Commercial Salesmanager of Aireon Mfg. Corp., Kansas City, makes a flying visit to Jim Blackwell of this city to discuss the new Aireon phonos.

In the photo from left to right are: Frank Q. Doyle, regional salesmanager for Aireon; Clifford D. Kemp, district salesmanager; James P. (Jim) Blackwell of Blackwell Distributing Co., this city and R. R. (Rudy) Greenbaum.

HAS MOST BEAUTIFUL BUILDING IN N. J.

IRV ORENSTEIN

NEWARK, N. J.—"The most beautiful coin machine building in the state of New Jersey," is what coinmen here are saying of the new Hercules Sales & Distributing Company showrooms and offices in this city.

Irv Orenstein and Dave Engel who head the firm are mighty proud of of the job they have just completed.

The outside of the building is extremely modern and very attractive and features a large building-wide neon sign with the firm's name. Everything is enclosed on the one floor of this large building and is therefore considered to be one of the most efficient in the state.

Orenstein reported, "We built it to please our customers and we are going to continue on just doing things to please them."

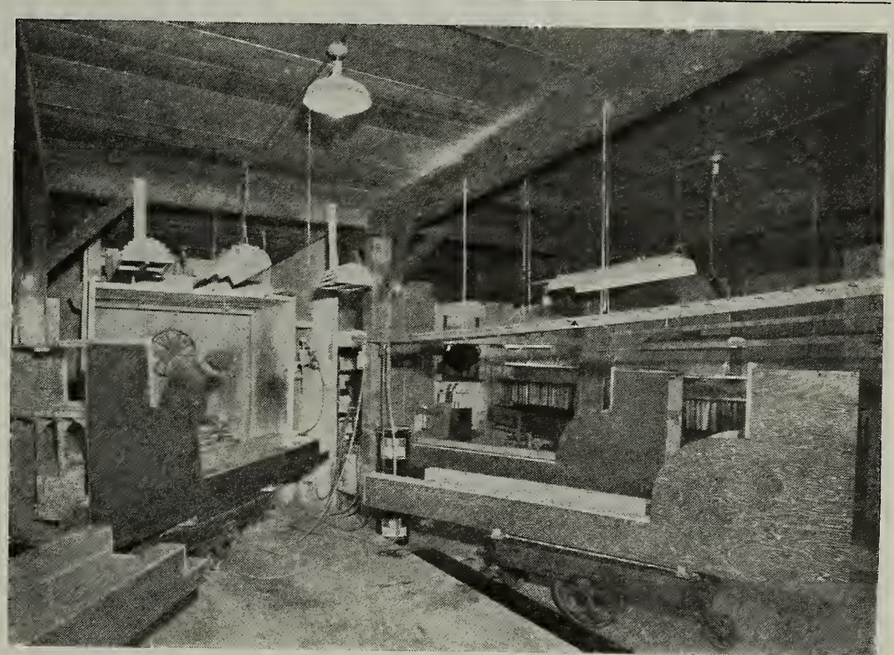
JAFCO SPEEDS UP PRODUCTION

POUGHKEEPSIE, N. Y.—Al. Schlesinger and Jack Fitzgibbons of Jafco, Inc., New York City, are very proud of the new production lines which they have established in their new factory here.

Both men claim, "These new lines have speeded up production of our Roll-A-Ball Barrel Roll bowling alley and this picture alone gives some idea of the automatic equipment which we have installed to make this possible."

Pictured here is the new automatic spraying machine which gets the cabinets all taken care of in speedy time.

"From here," Fitzgibbons reports, "the games are continued on their way to get the mechanism and all the rest of the parts they require and then finish up right at the packing room where they are efficiently and securely packed prior to shipment.



"You can tell the trade," both Fitzgibbons and Schlesinger stated, "that we are well under way with our production and that deliveries are going forward at top speed."

COINMEN CAN LICK "MUZAK" WITH SELECTIVE MUSIC CONTROLS

Special to The Cash Box

NEW YORK—Leading coinmen are beginnig to enter into the type of music being offered by "Muzak" to various eateries, professional and industrial locations.

"Muzak" is already in 125 American cities and reports that by next year 90,000 out of 120,000 factories will pipe "Muzak" music to their employees.

The one problem with which these coinmen are confronted in offering exactly the same type of non-selective, non-coin operated music as the "Muzak" system, is that of paying ASCAP for copyright privileges. (It is understood that "Muzak" has an agreement with ASCAP.)

But, these coinmen report, they believe that they can very easily overcome this one problem by offering complete selectivity to every type of location into which they enter by use of a coin operated system.

"This will mean," as one noted music machine man who is already contacting various professional and industrial spots explained, "that we will have to use the double-channel two-wire system just as we now have on our wired telephone music.

"But," he continued, "this gives us a real edge over 'Muzak' for they can only pipe in a program set up far in advance."

He stated that there are many factories which prefer a certain type of music, entirely different from that which other locations, like banks, restaurants, haberdashery stores, dentists and doctors may be getting in their offices.

"It sure wouldn't be sense to pipe in a hot boogie tune into a doctor's or dentist's office just when he is in consultation with a very serious case and upset the patient," he says. "Instead," he claims, "the doctor could call and advise just what he wanted and our operator would be more than happy to furnish the sort of music he requested."

According to general opinion, at least among music ops who are thinking seriously of entering into other than coin operated music spots, "We can easily lick the 'Muzak' system once we again get the equipment we need. Furthermore, we can match and even beat their charges and still make money for our wired music will be going into other than these locations at the same time. And since we already have to pay the lineage charges to the telephone company anyway why not take advantage of all the rest of the locations around the same area and give them the music they want by setting aside a turntable or two for them which our operators can control, can turn off at request, and can even change the program in a minute or two on demand of the customer?"

Investigation, these coinmen state, has proved that they can get the very same locations which "Muzak" are trying for and yet give this better service than "Muzak" can for they are already geared to do the job, they say, with their present wired music set-ups.

It will be an interesting race to watch as the weeks go by and note how coinmen stack up against the idea of selling into spots near their present coin operated locations.

The only thing which seemed to, at first, halt coinmen in this race with "Muzak" was the fact that they might be faced with ASCAP suits where there were no coin operated machines in view. They can, they claim, install automatic wall boxes as well as a regular coin operated cabinet, and even if the switch is tripped to allow for calls they can do so without intervention, they believe.

Legal minds of the coin operated music machine industry are digging further into the subject for these juke box ops and will probably give some opinions very shortly in regard to the copyright problem.

Westerhaus Appeal on Fed. License Info Wins Support

JOE WESTERHAUS

CINCINNATI, O. — The report from Joe Westerhaus of Westerhaus Amusement Co., this city, given the trade in this past week's (April 22) issue of *The Cash Box* regarding the fact that the coinmen in this area definitely want a "National Tax Council" in view of the fact that the press here, by publishing the number of Federal gaming licenses issued in greater Cincinnati and Hamilton County closed this territory.

The press listed each location for which a gaming license was issued when they found that over 600 such licenses had been issued by the Federal Government at the cost of $100 per license.

The result was to upset the entire trade in this area and coinmen here are steaming mad over the fact that this is public information which can be grabbed by the press to upset their livlihood.

Since that report was published many other coinmen have written to *The Cash Box* and have suggested that one of the very first jobs of a "National Tax Council" should be to arrange with the Federal authorities that information regarding licenses remain only for their own officials and not for public dissemination.

These coinmen believe that the fact anyone can enter into a Federal building anywhere in the nation and be given such infromation places them in a precarious position.

Joe Westerhaus reported this as follows, "Every operator in Hamilton County, including myself, thinks this is a very unfair practice since paying your taxes is the incriminating evidence against you."

Happy Over Stepped Up Production

GEORGE PONSER

NEW YORK — George Ponser of Amusement Enterprises, Inc., this city, manufacturers of the "Bank Ball" bowling alley reported this past week, "I am extremely happy to report that Irving Kaye, my partner and production expert, has been able to step up production of 'Bank Ball' to such an extent that we are not only appointing more distributors but are now able to fill orders in rotation as received."

Ponser stated that Kaye had virtually accomplished a "production miracle" in the manner in which he handled the schedule which they had set for themselves to satisfy the demand of their many distributors thruout the country.

"Irving," George stated, "is doing one of the greatest produtcion jobs in the country. He sure is turning 'Bank Ball' out at a marvelous rate, all other things be considered these days."

Clicks With Hockey Conversion

LEO LEWIS

CHICAGO—Leo Lewis of the Lewis Coin Machine Service, this city, has clicked with the hockey conversion which the firm are now producing in good quantity.

"We believe," Lewis reports, "that any operator who will spend just a few minutes to use our new conversion unit in his old Hockey machine, changing it to double player hockey, will find that he has one of the greatest profit makers he has ever yet used on his route. We are very proud of the fact that we can turn these out at a very reasonable price to the trade."

Will Open New Bldg. Soon

IRV BLUMENFELD

BALTIMORE, MD.—Irv Blumenfeld, one of the "three generals" who head the General Vending Sales Corp., here, announced this past week that he hoped their new building, under construction for some months past, will be opened very shortly.

The firm are exclusive distributors for Aireon, Gottlieb, Exhibit, Jennings and Amusement Enterprises, Inc., thru this entire territory.

Kids Play — License Lost

LOUISVILLE, KY.—Because school children of the Fairdale school here lost their lunch money playing machines at the Fairdale Inn, H. C. Griffin, the location owner, is without a beer license today.

The license was lost when the minors testified before County Judge Barker that they had played a slot machine in the Inn. Residents in the neighborhood, protesting to the continued licensing of the establishment, clinched the action.

Permanent "World Fair" of U. S. Exports Planned

ALBANY, N. Y.—Coin machine manufacturers may soon be invited to exhibit their newest wares for the world export market at a permanent "Fair" with the recent announcement made here that a $100,000 corporation to plan and develop a world trade center in New York State has been approved by Governor Thomas E. Dewey.

The trade center, expected to be established in New York City, will be used for "exhibiting and otherwise promoting the purchase and sale of products in international trade." It will be established similarly to the prewar Leipzig fair in Germany.

The world trade corporation will be placed in the hands of a nine man board of directors to be appointed by the governor for a nine year term.

By January 1, 1947, the groundwork for organizing the project is expected to have been completed, with the building program for the center to begin shortly thereafter.

MUSICAL RECIPES

FLEMINGTON, N. J. — Juke boxes are helping to set the eating tastes of the country, according to Helen Kirtland, cooking columnist for the "Hunterdon Republican," local newspaper.

In her column, "The Way To A Man's Heart," Miss Kirtland named "Apple Pan Dowdy" from the song "Shoo Fly Pie" as one of the numbers which, thru constant play on jukes and radio, has resulted in a revival of popularity for this old-time apple pan dish.

According to the recipes Miss Kirtland provides for the "Shoo-Fly-Pie" number it probably makes as good eating as listening.

MUSIC FIELD EXPANDS

Ten Types of Automatic Music Now Branch Off From Original Juke Box

NEW YORK—The remarkable expansion of the juke box business in the past years is gaining attention of all American industry. It is also opening the way for the million automatic music locations, long foreseen by all juke box leaders.

As is well known the advent of the amplification unit and the lifetime needles opened the path to the modern juke box. For some years only, 1) the juke box itself was known to those interested in automatic music. This was expanded by the use of wall and bar boxes, wired and wireless.

Following this, 2) comes the hide-away installations. These have grown tremendously during the war period.

Along with this growth, and now growing greater in demand is, 3) wired, or telephone music.

And with this there also developed, 4) non-selective music. These music boxes offer approximately six minutes of continuous music for either 1c or 5c and are growing in importance each day.

Of late there has been a definite trend to, 5) commercially sponsored music. This is piped in music of the telephone (double channel) type which is backed by a commercial sponsor who is allowed to make a short announcement on a recording.

Now new developments come along in, 6) industrial music for factories, which is gaining more and more followers who are battling "Muzak" for these locations.

Then there is, 7) professional music for doctors and dentists offices which is also gradually gaining headway and which is featured on the double-channel telephone music system giving the location complete selectivity which "Muzak" cannot offer.

Further along this same line is, 8) apartment house music. This will either work from a basement hide-away or from a single channel or double channel telephone music system.

A new trend is, 9) development of wired telephone music with selectivity to department stores and other retailers. Single channel music men are also searching out these spots.

And, according to many music coinmen, 10) music-on-film should not be overlooked for during the wartime period this proved a good money-maker. There are new machines forthcoming to feature music-on-film and these, it is believed, may develop an entirely new and different market.

MUSIC OPS SQUAWK ABOUT 'FALLEN ANGEL'

NEW YORK—Music ops have been expressing indignation over the manner in which Twentieth-Century Fox portrayed the juke box business in their current motion picture, "Fallen Angel", according to letters received.

"When are we going to get a break?" asked one coinman. "In the picture, Bruce Cabot, portraying the juke box op, is shown as a shady sort of character, 'wise to the ways of cops;' his business associated with gambling, etc. When are the people in this business going to be given fair representation to the public?"

In another letter, the questions asked by the above quoted operator appear to be adequately answered.

"The motion picture, 'Fallen Angel', is as good an example of why we need a public relations program as any I have ever seen. Only thru effective publicity can we present this industry in a more favorable light. I further recommend that any such program include a separate division to cover the motion picture producing companies so as to halt adverse presentations such as 'Fallen Angel' even before they are put into production."

Phono & Pin Route Sold

SHORTAGE IN PLASTIC SUPPLY LOOMS

NEW YORK—A critical shortage of plastic parts may soon confront this industry unless measures are taken to sharply multiply material and equipment available to plastics manufacturers.

This shortage situation was revealed this past week by W. Stuart Landes, president of the Plastics Materials Manufacturers Association, who announced that manufacturers of plastics materials can supply only about one-third of the present demand, altho they are operating their plants at capacity and have doubled their 1941 production figures.

Speaking at the convention of the Society of the Plastic Industry, held at the Commodore Hotel, this city, this past week, Landes placed the reasons for the production bottlenecks as the result of strikes in the steel and coal industries

He further pointed out that a great proportion of planned expansion, totaling more than $125,000,000, is involved in a program which may be affected by the recent Federal directive which limits industrial building to the $15,000 category.

"We are hopeful," Landes declared, "that the authorities will consider the end products of the plastics industry important enough to grant the necessary permission, but there will be several months additional delay in getting projects approved."

Well aware that this industry is among the heaviest users of plastics in its production set up, many coinmen observers are of the opinion that unless plastic supply is eased, production lines within this industry may be affected.

Predicts Greater Credit Demand

CHICAGO—In line with the constant urgings made by *The Cash Box* for the necessity of a "National Credit Bureal" for this industry was the announcement made at a conference of the Credit Management Division of the National Retail Dry Goods Association held in this city last week. It was declared there that the boom in goods sales will be accompanied by a corresponding increase for credit despite swollen bank accounts.

ARA Does It Too—

Company Distribs Will Go Independent

LOS ANGELES, CALIF.—ARA, Inc., record manufacturers headquartered here, announced this past week a drastic revision of their distribution system.

Independently owned ARA distribution offices are being set up in the major trading centers of the country to take the place of the former ARA-owned distributing outlets.

It was stated in the ARA announcement that within sixty to ninety days there will be officially franchised ARA distributors in 30 to 35 cities from coast to coast. Each will provide his own organization with warehouses and sales force.

"Establishing these owner-operated distributors will provide greater distribution efficiency in more major trade centers immediately," said Mark Leff, President of ARA, Inc. "The move was the logical outcome of the fact that our young company has dramatically taken its place as a proven hit maker and in the first few months of 1946 established itself as the fifth major label in the recording field, thus necessitating a more complete coverage of the country at once."

"Consumer and trade advertising plans have also been greatly expanded to meet the demands of our rapidly growing nation-wide dealer organization," said Leff, "with this increase in home office support, coupled with the impetus of locally-owned, locally-known distributors, we are convinced that ARA will maintain the position we have established as one of the five leaders in the field."

TAXES SLASHED ON PINS AND GAMES AFTER COINMEN APPEAL

NETCONG, N. J.—An ordinance providing for the licensing of pin games and arcade equipment was amended recently by the Mayor and Borough Council of this township, after spokesmen for the pinball and arcade ops had urged that the license fees on these devices be reduced.

Judge Frank C. Scerbo, representing the pinball operators, told the mayor and council that receipts from pinball games were not high enough to absorb the anticipated $400 license fee, declaring that the, "machines were amusement, not gambling equipment."

Walter Reynolds, attorney for the arcade men whose interest lay in ray gun operations, said it would be financially impossible to continue operating the machines in a community where a $50 license fee was imposed.

Weighing the arguments presented by the operators, the Mayor and Councilmen agreed to amend the ordinance. The license fee for pinballs was reduced from $400 to $100, and the fee for all other amusement equipment went from $50 down to $10.

(Coinmen observers noting what happened in this township thru the intelligent handling of the license issue, were of the opinion that it could also happen in other localities if there were an organization always ready and available to fight exorbitant tax demands.

OPENS REVAMP FIRM

AL BLOOM

NEW YORK——Al Bloom, who for the past eight years served as secretary of the Automatic Music Operators Association, this city, has organized Speedway Products, Inc.,

The new firm has purchased an entire wood working plant and will devote itself to the reconditioning of used music machines. In addition, it will mold replacement plastics for this equipment, it was reported.

"We have accomplished all necessary alterations to our plant, hired trained personnel and are now ready to accept business," Bloom declared "Being an old hand in the music field, I believe our firm will help alleviate some of the basic headaches in the revamping and repair of used equipment," he added.

Ideal's Warehouse Burns

ST. LOUIS, MO. — Carle Trippe's Ideal Novelty Company, well known distributors of this city, were the victims of a fire recently which burned their warehouse. Only the four walls of the structure, located at 2201 Pine Street, were left standing.

The firm, which generally maintains a large stock of equipment on the premises, lost an impressive quantity of games, one-balls, shipping crates and cartons to the flames. Fortunately, however, the greater proprotion of equipment was located in the basement at the time of the blaze and these remained untouched.

Damages sustained were reported to be approximately $55,000.

MAY EASE BEER CRISIS

ATLANTIC CITY, N. J.—Coinmen whose equipment now stands idle in beer taverns shut down due to the critical shortage of the brew may take slight heart in the announcement made here recently that the National Beer Wholesalers Association is attempting to cut thru government red tape to obtain release of "untold thousands of cases" of beer bought for the Army and Navy

PUBLIC OPINION POLL PROVES ITS WORTH

Parking Meter Survey Results Point Way on How to Open Territory

Special to The Cash Box

PHILADELPHIA, PA. — Coinmen here are showing increasing interest in the recent suggestion of *The Cash Box* that closed territories be Gallup-polled for public reaction to the proposed return of coin machines.

Reason for this late consideration is the public opinion poll which was conducted thruout this city during the past few weeks by "The Bulletin," local newspaper, on the contemplated installation of parking meters.

The direct result of this poll is that the Committee of Seventy is recommending to city law-makers that the meters be installed, and the general belief here is that the suggestions will be carried thru.

With the parking meter issue having pointed the way, a number of observing coinmen in various cities are seeking support to institute the same sort of public opinion poll on the issue concerning banned amusement games.

"Many of us feel that the war's end has brought with it a more liberal attitude among the people," advised one coin leader in a midwest city. "In addition, returned servicemen who have had occasion to use the banned equipment while they were at military installations would look upon the reopening of closed territories with favor.

"Holding these factors in mind," this coinman continued, "we feel that a public opinion poll would show the majority of people to be inclined toward a change in the current set-up."

It was further pointed out that in treating the issue of banned equipment in the same vein as the parking meters had been considered — thru the use of an accepted, reputable medium such as an impartial public opinion poll — such a measure would reflect credit on the entire industry.

"After all," volunteered another supporter of this proposal, "this business has matured to become an important industry, and we would be handling this question in a manner befitting its importance if we were to regulate the return of games with the use of a confidential public opinion poll."

Remarking on the recent politically-inspired explosion against the "phantom appearance" of banned equipment in New York City, he added, "Everything that happened there could be tied up to too much misinformation being circulated. It may have all been averted if the public had been allowed to express its voice by a confidential poll before the members of the trade began any attempts to reopen their city."

SEN. MYERS' BILL "S. 1206" DUPLICATES "BUCKLEY BILL"

No Action as Yet Being Taken on this Bill

WASHINGTON, D. C.—Introduction of Bill S. 1206 by Senator Myers occured on June 28, 1945, almost a year ago, after two readings. It was then allowed to go on to the Committee on Patents in the U.S. Senate.

So far, according to word received from Washington, no action has as yet been taken on this bill by the Senate Committee on Patents.

But, like the "Buckley Bill" in the House of Representatives Patents Committee, it is in committee and therefore continues to hang as a threat over the heads of the men engaged in the operation of juke boxes.

This bill duplicates the Buckley bill to a "t." The wording is the same and all the phrases are arranged in the very same fashion. (Note, when reading this bill, that the motion pictures have been exempted, just as they were exempted in the Buckley bill.)

The entire bill, proposed as a measure to amend the "Copyright Act of 1909" seems to be simply another method being used by ASCAP to collect from every recording which is played in a juke box — probably on a yearly license fee basis. (This license can be anything from $100 to $1,000 per year — once this bill becomes Federal law.)

There is also a worry here that perhaps James Caesar Petrillo, who heads AFM, may also have his eyes on this bill as well as the Buckley bill.

It is a known fact that Petrillo is reported to be getting all set to jump on the juke boxes thruout the nation regardless of the fact that his musicians are being extremely well paid today.

There is revenue in records — and Petrillo knows it. But, the one hope is that if Petrillo does decide to enter into a revenue hunt from juke box records that he will arrange, thru his musicians' union, to make records exclusively for juke boxes and thereby tie up the record companies and ASCAP to an agreement which will, small and weak as it seems, somehow prevent the further encroachment on this industry by those who desire to change a "copyright act" and address that change exclusively to juke boxes.

It is up to the members of the juke box industry to watch the action that may, or may not, be taken on this bill — just as closely as they are watching the action which may, or may not, be taken with the Buckley bill.

The growth of the juke box industry can be stopped instantly should either this, or the Buckley bill, be sneaked thru the House or Senate Patents Committees and placed up for vote in either the House or the Senate.

S. 1206

IN THE SENATE OF THE UNITED STATES

JUNE 28 (legislative day, JUNE 25), 1945

Mr. MYERS introduced the following bill; which was read twice and referred to the Committee on Patents

A BILL

To amend the Act entitled "An Act to amend and consolidate the Acts respecting copyright", approved March 4, 1909, as amended.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Act entitled "An Act to amend and consolidate the Acts respecting copyright", approved March 4, 1909, as amended, be amended as follows: Amend section 1 by adding the following new subsection (f):

"(f) To make or to procure the making, if the copyrighted work or any componet part thereof be an acoustic recording, of any duplicated or recaptured recording thereof on a disc, film, tape, wire, record, or other device or instrumentality, by or from which, in whole or in part, the sound recording on the copyrighted work may in any manner, or by any method, be reproduced or communicated acoustically; to publish and vend such recordings of sound; and to communicate and reproduce the same acoustically to the public, for profit, by any method or means utilizing any such recording in, or as part of, any transmitting or communicating apparatus: *Provided, however,* That, except if the recorded sound be part of a copyrighted motion picture, no exclusive right other than contained in this subsection (f) shall exist in respect of any acoustically recorded work."

Amend section 1 of such Act by striking out the last paragraph thereof which reads: "The reproduction or rendition of a musical composition by or upon coin-operated machines shall not be deemed a public performance for profit unless a fee is charged for admission to the place where such reproduction or rendition occurs."

Amend section 5 by striking out the present subsection (1) and substituting therefor the following subsection:

"(1) Motion pictures, with or without sound."

Amend section 5 by striking out the present subsection (m) and substituting therefor the following subsection:

"(m) Recordings which embody and preserve an acoustic work in a fixed permanent form on a disc, film, tape, record, or on any and all other substances, devised, or instrumentalities, by any means whatever, from or by means of which it may be acoustically communicated or reproduced."

Amend section 6 to read as follows:

"Sec. 6. That compilations or abridgments, adaptations, arrangements, dramatizations, translations, or other versions of works in the public domain, or of copyrighted works when produced with the consent of the proprietor of the copyright in such works, or works republished with new matter, shall be regarded as new works subject to copyright under the provisions of this Act; but the copyright secured in any such new works shall not affect the force or validity of any subsisting copyright upon the matter employed or any part thereof, or be construed to imply an exclusive right to such use of the original works, or to secure or extend copyright in such original works: *Provided, however,* That acoustic recordings of any copyrighted musical work made pursuant to the provisions of subsection (e) of section 1 upon payment to the copyright proprietor of the royalty specified in such subsection whenever the owner of such musical copyright has used or permitted or knowingly acquiesced in the use of such copyrighted musical work upon the parts of instruments serving to reproduce the same mechanically, shall not be regarded as new works subject to copyright under the provisions of this title unless the proprietor of such musical copyright has consented to the securing of copyright in such recording."

Amend section 11 to read as follows: "Sec. 11. Copyright may also be had of the works of an author, of which copies are not reproduced for sale, by the deposit, with claim of copyright, of one complete copy of such work if it be a lecture or similar production or a dramatic, musical, or a dramatico-musical composition; of a title and description, with not less than five prints taken from different sections of the film, accompanied by corresponding portions of its acoustic recording, if any, if the work be a motion picture with or without sound; of a photographic print, if the work be a photograph; of a title and description, with the record or instrumentality containing the recorded sound, if the work be an acoustic recording; or of a photograph or other identifying reproduction thereof, if it be a work of art or a plastic work or drawing. But the privilege of registration of copyright secured hereunder shall not exempt the copyright proprietor from the deposit of copies, under sections 12 and 13 of this title, where the work is later reproduced in copies for sale."

Amend section 12 by adding the following:

"For the purpose of this title, any duplicating or recaptured recording on a disc, film, tape, wire, record, or other device or instrumentality, by or from which, in whole or in part, the sound recorded on the copyrighted work may in any manner, or by any method, be reproduced or communicated acoustically, shall be deemed a copy of the work."

Amend section 15 by adding the following:

"Of the acoustic recording, except if such recording be part of a copyrighted motion picture with sound, any duplicated or recaptured recording thereof given protection under section 1, subsection (f), of this title, shall be manufactured by a process wholly performed within the limits of the United States."

This Act shall take effect as of July 1, 1945.

300 PINBALLS BECOME NINE ARCADE MACHINES

Mutoscope Raid By D.A.'s Office In Which Press Reported 300 Machines Seized Now Revealed As Only 9

NEW YORK—The raid on the large Mutoscope plant in Long Island City which was so widely publicized in the press here with reports that over 300 machines had been seized, "many of which were the type that could be converted to gambling equipment," are now revealed to have been only nine machines.

Furthermore, when the case comes up, some faces are going to turn a very glistening red when the facts are heard — for these 9 machines are regular arcade machines now licensed and in operation here in the city of New York.

Members of the trade, naturally disturbed at the newspaper reports, were greatly relieved when they had the good sense to check the reports and found how ridiculously exaggerated they were. Knowing of the unblemished reputation for forthrightness and law abiding that Mutoscope has enjoyed in the 51 years of their existence, many people are wondering what the city is up to. Is somebody's personal grudge involved here — is the whole thing a smoke screen — or what? The facts certainly do not warrant such commotion.

The Mutoscope firm is continuing right ahead with reconversion and production and eagerly looking forward to their day in court when they can bring out the true facts in this case and perhaps cause the press to wonder "what's all the shootin' for?"

OPS AND TAVERN MEN UNITE; STOP JUKE TAX

BROOKFIELD, ILL.—The proposed village license fee on juke boxes being operated in this area went down in defeat at a recent meeting of the village board when operators and location owners joined forces to fight the measure.

It had been the recommendation of Irving Novak, chief of the village tax committee, that the license fee, if levied at all, be limited to ten dollars per year, but to this the operators' group and the Tavernkeepers Local voiced strong objection.

Clarence Hoppenrath, another village committeeman, clinched the deal by stating that in view of the opinions expressed by the objecting businessmen, and the fact that the revenue from such taxation would be small, it would be better to forget the matter.

It was then that Novak withdrew his tax motion and the entire issue has been dropped.

Robbed Cig Vender; Gets Job

BRONX, N. Y.—George Walsh, 16-year old youth, who clipped a lunch wagon for the take from a cigarette machine and thirty pounds of butter, can thank an understanding location owner for his freedom and a job.

He was given a suspended sentence by County Judge Stackall when Lawrence Ryan, proprietor of the establishment, said he would offer the lad a job if he were set free.

Juke Plays For Slot Loot

OROFINO, IDA.—Slot machines at the Vet's Club and Boosters Club here were looted recently by two men and two women.

The quartet did their work with enterprise and system. This according to the club owners, is the way they worked: One of the women, pretending to be under the influence of liquor, approaches the bar, orders a drink and starts the juke box playing, turning it on to create as much noise as possible. The others group themselves around a twenty-five cent slot machine and by the use of a drill so manipulate the machine that it pays off on every play.

Coinmen Watching New Housing Developments

NEW YORK—Coinmen in this city are reported to be carefully scanning all news which treats with the establishment of new government housing projects here.

It has been proven, thru study of locations created by new housing developments, that more play can be expected there than would generally be obtained in other residential communities.

Reason for this is believed to be the desire of new residents to meet with their neighbors over a bar or ice cream counter.

WOLF MEETS THE DINNING SISTERS

LOS ANGELES, CAL.—M. S. (Bill) Wolf of the M. S. Wolf Distributing Co., this city, the man with the great big smile on the left of the above picture, greeting the famed record-iny stars, the Dinning Sisters, at his Los Angeles showrooms while Bert Beutler who manages Wolf's show-rooms in Seattle, Wash. and Al. Griebahn who manages these offices also get into the picture with their arms around their favorite two-thirds of the Dinning Sisters.

According to Bill Wolf, "They sure are lovliest of the lovelies — you can take that from me — period."

Bill entertained over 47 leading recording stars at his Los Angeles offices and reports that they continue to call around to say "hello" every so often these past weeks.

AUTOMATIC COIN OF SPRINGFIELD ELECT NEW OFFICERS

W. P. (Bill) Kelley Sells Out

SPRINGFIELD, MASS.—The annual meeting of Automatic Coin Machine Corp., 338 Chestnut St., this city, was held this past week and the following officers were elected: Eugene O. (Gene) Baker became president; James C. (Carl) Taft, became treasurer of the corporation.

The directors accepted the resignation of Wm. P. (Bill) Kelley on April 22. Kelley sold his interest to the corporation and is no longer connected with it in any way.

"Gene" Baker is well known to all the trade. For 4 years he was on the sales staff of O. D. Jennings & Company of Chicago and during that period, he reports, he traveled thru 36 of the 48 states.

In 1933, Baker was one of the original trio who organized the company. It was incorporated in 1936. Thruout this period, he reports, most of his time was spent calling on the coinmen thruout the New England states.

J. C. (Carl) Taft joined the firm in 1935, as office manager and was elected assistant treasurer in 1936, which position he held since that time. His duties kept him in the offices and showroom of the firm here and he is well known to all visitors who have called at these offices.

"Gene" Baker stated, "The policies of the firm will not be changed, except as they can be improved. You can advise all the trade that we shall continue to give them the finest service and cooperation and we have some mighty fine plans for every single one of the coin machine operators which will please them tremendously."

PRESS CLAIMS THAT PETRILLO'S FIGHT IS JUKES vs. MUSICIANS

NEW YORK—The April 15, 1946 issue of the "New Republic" magazine, this city, claims in itts "Washington Notes" column that, "On the labor front, the Senate has now passed, 47 to 3, the 'anti-Petrillo bill,' which had previously passed the House by 186 to 6.

"The Senate debate showed the bill up as the phony it is. The language is loose; it is probably unconstitutional; and it looks to this observer like another Smith-Connally spite bill, not likely to be very effective even if it is repassed over a possible presidential veto.

"James Caesar Petrillo is no hero of ours, but it is hard to see that this bill is any solution for the basic problem involved, which is Musicians vs Juke Boxes, or Man vs Machines."

(Here again arises the crux of the problem which is confronting the juke box trade; that eventually Petrillo will drive against the juke boxes to obtain revenue from each and every record played therein for his union treasury. As yet there have been no efforts made by "Little Caesar," but all in the juke box trade are aware that he will not let this sweet revenue go unchallenged — and with the many victories he has already won — he may prove to be a serious threat.)

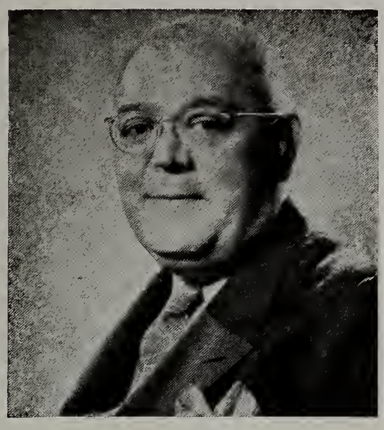
COIN-ARTS NAME 21 DISTRIBS



A. R. SLADE

MILWAUKEE, WIS. — A. R. Slade, General Manager of Coin-Arts Industries, this city, reports the firm have now named 21 distributors to handle their new "Shine-A-Minit" shoe shine machine and also their "Pilot Trainer."

The firm are hard at work at this time getting production set up as fast as they possibly can, Slade reports, and also states that they will do everything within their power to make it possible for their distribs to take care of the demand which has arisen all over the nation for the new "Shine-A-Minit" machine.

Tho the "Shine-A-Minit" hasn't even as yet been officially unveiled, the demand already created by the publicity in the nation's press has broken all sales records.

"DOC" EATON AND THE ANDREWS SISTERS

LOS ANGELES, CAL. — DeWitt (Doc) Eaton, general salesmanager of Automatic Instrument Co., Chicago (AMI) being patted on the back by the famous Andrews Sisters because of "the way we reproduced their songs on our new AMI", Doc reports.

He also says, "The Andrews Sisters believe that our new Model 'A' is going to help them to really give out with some tricky rendition of some of the new songs which they are recording."

N. Y. CLEAN UP CAMPAIGN HITS SUBWAY VENDERS

NEW YORK—With the "Daily News" here on a rampaging crusading campaign to clean up the city — headlines appeared this past week calling the subways here the dirtiest part of New York.

This paper proposed that something be done immediately about cleaning up the dirt that litters the subway stations and directed much of its heated statements against the vending machines located in the subways.

The News claimed that these created the major part of all the dirt in the subway systems — just as they did everywhere else.

(Once again the need for better public relations effort is emphasized with this sort of newspaper crusading. The NAMA should call together their directors and arrange for discussions with those most interested and thereby avoid this sort of ugly publicity for vending machines generally. Coinmen here are of the belief that this would not have been the case were there some understanding among the merchandise machine men regarding dirt conditions.)

ARCADES, AMUSEMENT PLACES, SPORTLANDS, ETC.

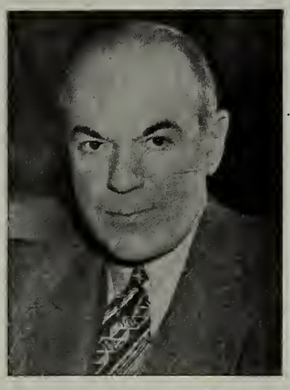
NEW BALLY CONSOLE IN L. A. ADVANCE SHOWING

Al Sleight Holds Show at Biltmore Hotel. Ray Moloney Present to Greet Trade



RAY MOLONEY

LOS ANGELES—Al Sleight, western regional salesmanager for Bally Manufacturing Co., Chicago, held an advance showing of the new Bally console, "Draw Bell," at the Hotel Biltmore in this city this past week, and had the pleasure of presenting Ray Moloney, president of Bally, to the over 400 coinmen who came to see the new machine.

The new "Draw Bell" attracted a great deal of comment from all those who attended this advance showing. It features single coin play with the famous hold and draw feature, yet has the three bell-fruit symbol reels. The player can hold one or two of the reels and draw to what he holds.

It was also announced that the "Draw Bell" would come in three models, either 5c, 10c or 25c play. It is a combination free play and pay-out job and this, in itself, won much good acclaim from all who played it.

Sleight reported, "I believe that this was one of the most enthusiastic showings ever held in the southern California area. The orders already taken bid fair to set a new record for consoles here. There is no doubt of the grand manner in which all the ops, jobbers and distribs reacted to the 'Draw Bell,' all they ask for is 'immediate delivery' and as many as we can ship."

Many coinmen here had never met with Ray Moloney before and were thrilled to be able to shake hands with the man who produced so many winners for them.

INTERNAL REVENUE DEPT. HEAD TELLS PRESS "NO SLOT DRIVES"

Claims "Unusual" for Public to be Able to View Revenue Dept. License Data

CINCINNATI, O.—Thomas A. Gallagher, Collector of Internal Revenue in this city, told newsmen here recently that his office was not initiating any drives against slot machines.

His statement was made following the publication here of slot machine registrations which appeared in the newspapers thruout this territory.

Gallagher's statement follows: "The Collector's Office is neither initiating nor participating in any slot machine drive. We have not and are not now publishing facts and figures with reference to slots registered in this district.

"The fact is that under the law and as an exception to the general rule, the slot records are open to public inspection and, of course, this includes the newspaper men."

Many coinmen here have expressed bitter resentment over the fact that the Internal Revenue Office is obliged by law to grant public view to slot machine records. It is felt here that the payment of a federal license fee should carry with it the provision that all information given to the U. S. Government would remain confidential.

In the meanwhile, it was reported that the city sheriff, C. Taylor Handman, is having two deputies copy the list, and he has called all mayors, inviting them to use the information. Oris E. Hamilton, City Safety Director, also received a copy of the list.

The State Liquor Enforcement Executive, William E. Hopper, has notified all clubs in his district holding D-4 liquor licenses that they risk revocation of their licenses and confiscation of the machines if any are found by state liquor enforcement officers. He had given them a one week notice to dispose of the equipment.

CIG MACHINE SENDS THIS CUSTOMER TO THE HOSPITAL

JOLIET, ILL. — Joe Prieboy netted himself more than a smoke when he began to manhandle a cigarette machine in this city.

Joe had inserted the coins as required, but when he pulled the handle to send a fresh pack tumbling down the chute, the handle stuck.

A determined man when he wants his cigarettes, Joe gave the machine a hearty heave-ho and the top half of the assembly fell off the stand to strike his left leg. A hospital examination disclosed a large laceration and possible fracture just below the knee.

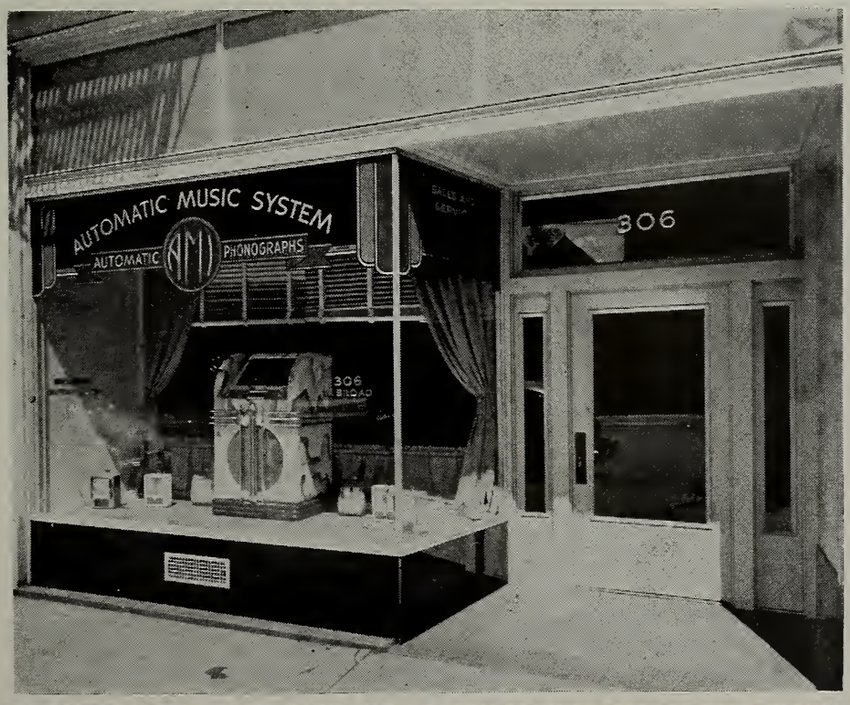
ALLEY NAMED VA. AMI DISTRIB



RICHMOND, VA.—E. B. Alley, distributor in the state of Virginia for Automatic Instrument Co., (AMI) Chicago, reported that, 'Our firm has completed set up for arrival of the new AMI 'Model A' phono and believe that this machine will prove to be the biggest hit in this state."

Alley is very well acquainted with the AMI mechanism having used and featured it for a long time. He knows what the ops here want, he reports, and believes that the new "Model A" phono just presented to the trade by AMI will go over very well with the trade in this area.

He stated, "We have arranged for one of the nicest showrooms in this part of the country and it will be a pleasure to have all the music operators visit with us and learn why we are so intent on having them see the new 'Model A' of AMI."

JUKE BOX CREDITED AS A THERAPY AID TO NAVY AMPUTEES

PHILADELPHIA, PA. — "Dancing Therapy" provided thru juke box music is the latest aid being given to amputees at the Naval Hospital in this city.

As a result, visitors who enter the hospital's Ward K on Tuesdays or Fridays are likely to think they are walking into a genuine jive joint with all the laughing, jumping sailors and girls who are swinging it out in rhythm to the hottest tunes the juke box can provide.

Sponsored by the Red Cross, the dancing sessions have become a vital part of the medical program being followed to aid the Navy, Marine and Coast Guard heroes who lost arms and legs in helping to win the war.

"I suppose that a juke box looks rather out of place in a hospital," commented one medical man, "even more out of place than the dancing. But," he continued, "so are the boys out of place here. Unconsciously, of course, they see in the machine a familiar thing. Like something from home. That helps add to what we are trying to do for them," he said.

As much a physical part of the surroundings as the young women who serve as dancing partners to the veterans, the juke box helps lend the air of festivity that prevails here, and even tho it takes no nickels for the fun it provides, it could never be in a more favorable location than it occupies right now.

Frozen Food Vending May Be Delayed 3 Years

COLUMBUS, O.—Coinmen who have been considering the operation of frozen food vending machines will be obliged to wait three years before the frozen food industry levels off to the point where the operator can count on a normal supply situation

This is the opinion of R. M. Fisher, expert in frozen food matters and general manager of the Creasey Co., who spoke before the annual meeting of the Associated Wholesale Food Distributors of Ohio, held here recently.

Multiplicity of brands and products, an inadequate quality control program, and insufficient plants for expanded production were among the reasons for the three year delay predicted by Fisher.

Kansan Calls "Automat" "A Glorified Slot"

HAYS, KANS.—The "News", local paper here carried the following account of a visit paid to the "Automat" in New York City by Kenneth Freidel, editor of another newspaper here.

"An automat is a glorified slot machine," wrote Freidel, who ate breakfast there. "The process of eating at one of these grub garages is this," he continued, "You get larger money changed into nickels, dimes and quarters at a booth where presides a bored and weary cashier. Then you proceed over to the wall where behind glass in little pigeonholes are contained the various dishes. If you want coffee you push a nickel in a slot, turn a crank, and a cupful of stuff comes out of a spigot. No backtalk from the waitress, no good morning from the waitress, no nonsense of any kind."

Then Freidel went on to explain how impersonally personal is the place, with any sort of character likely to be your dinner companion. "You find yourself plumped down beside somebody," he continued, "and he is not interested in how you feel, your opinion on Truman, or what you think of the UNO. He just wants to be let alone while he gets his food down.

"I'm not surprised at anything here," Freidel concluded.

Clifton Fadiman Says Pinball Games Are 2300 Years Old

NEW YORK—On a recent "Information Please" program, Clifton Fadiman, the well known man of letters who serves as master of ceremonies for this radio quiz show, mentioned to the listening audience that pinball machines were no new idea but, on the contrary, had been played 2300 years ago in Old Greece.

This was really a new one on us, so we called Mr. Fadiman on the telephone to inquire just where he had obtained that information.

Mr. Fadiman's assistant answered our question for us.

"Mr. Fadiman is doing some study on ancient Greece," we were told, "and in one of two volumes entitled 'Permatica and Mechanica,' by Hero of Alexandria, under the sub-heading, 'slot machines' the information was included."

By now we were intrigued with the subject, and so we telephoned the New York Public Library for a reading of what Hero of Alexandria had to say about slot machines in 400 B. C.

The librarian was not intrigued however. "Slot machines?" she repeated; then she ordered us to hold the phone. We held it until it became so heavy it fell from our arm.

Maybe she had gone to tell Mayor O'Dwyer.

C. C. GREENE NAMED RUNYON SALES PUBLICITY DIRECTOR

NEW YORK — Charles C. (Chuck) Greene, well known thruout this city, and owner of Stept, Inc., music publishers, who are at this time featuring "California Sunbeam" and "I Fall In Love With You Everyday," has entered into action with Barnet (Shugy) Sugerman and Abe Green of Runyon Sales Company, this city, in the capacity of Publicity Director for the music division of the firm.

"Chuck" Greene has spent a great many years in the music field and is personally acquainted with all the leaders in this business. He is very well known to the many columnists who circulate thruout the Broadway and Park Avenue sectors. His knowledge of the music field is considered second to none.

Sugerman stated in regard to the entrance of Greene into the firm, "This is one of the greatest events in our history. We believe that with 'Chuck' Greene in our fold that we shall soon be able to make announcements to the trade which will be of great value to all the juke box operators. We are already arranging for one of the most elaborate record departments ever seen in this territory and with 'Chuck' Greene to work with us in this regard we have something we believe will absolutely start a new era for the music operators."

Greene, himself, is very enthusiastic over the position he has just taken. He said, "I have known Barnet 'Shugy' Sugerman for sometime now. We have always been very close friends. I feel that this gives our own firm, Stept, Inc., the opportunity it seeks to prove to the automatic music industry our interest in helping everyone connected with this business to enjoy the finest recordings. It is my belief that everyone of the music field's leaders should enter into some effort with the juke box trade to help it grow to the greatest position in the music business."

JUNE 29 FOURTH YEAR IN BIZ

NEW YORK — With the June 29, 1946 issue *The Cash Box* will celebrate its fourth year in the coin machine industry. A special "Fourth Anniversary Issue" is being arranged. Further plans will be announced very shortly.

TAX JUKES IN REGULATORY ORDINANCE TO "CONTROL NOISE" AND "IMMORAL SELECTIONS"

LA SALLE, ILL.—This city wrote an entirely new kind of ordinance for the juke box trade this past week. In the first place, and for the first time, juke boxes are being taxed here at the rate of $15. per yearly license fee.

But what came as a surprise to juke box coinmen here was the "regulatory ordinance" under which this new tax came into being.

This regulatory ordinance opened the way for complaining neighbors of establishments which operate juke boxes by making the owner subject to a fine of not less than $5 and not more than $100 if the noise becomes excessive.

The city can also govern the records played in the juke box by censoring what it deems "immoral" selections.

It was specifically noted by Mayor Orr of this city that complainants on either or both of these charges must appear in court and sign complaints before the police will take steps towards enforcement of this regulation.

BOSTON NEWS BUREAU REPORTS MANY NEW JOBS CREATED BY JUKES

BOSTON, MASS. — The "Boston News Bureau," this city, reported this past week that, "Many new jobs are seen by manufacturers in the making and servicing of juke boxes this year and in 1947.

"An estimated 400,000 beaten and worn boxes, barraged with nickels since 1942, are ready for replacing."

WANTS 7½¢ COIN

NEW YORK — Dr. J. Rice Gibbs, dentist of this city, put teeth into the odd change problem this past week when he recommended that a new coin worth 7½c be minted.

Dr. Gibbs was inspired by the present N.Y. subway problem which must raise its fare. The fare at present is 5c but the subways are operating under a very great deficit and are thinking of increasing the fare to 10c. Dr. Gibbs logically points out that the 7½c coin would solve this problem and would save subway riders some $60,000,000 per year.

(All coinmen should crusade for the 7½c coin for this would be the solution to the needed revenue increase. Instead of 70%/30% commission basis; instead of 10c per play, 3 plays for 25c; and instead of "front money"; in most instances the 7½c coin would answer the need to obtaining greater collections.)

Orange Juice V'nd'r

MIAMI, FLA.—A new orange juice vender has been invented here. This machine shows each phase of its operation openly to the public.

When a nickel is dropped into the unit an orange rolls into view from a refrigerated container. It is sliced open right in front of the purchaser (inside of the machine) and then crushed while the buyer looks on.

The juice then spills into a paper cup which, when filled, is then thrust out to the customer.

(This machine has been discussed for some time and as yet vending machine ops are wondering whether it is practical. The problem of the quantity of oranges, the refrigeration unit, what happens to the pulp, sanitation, and many other angles enter into whether the machine is, or is not, as yet practical for coin operation.)

THE SENSATIONAL NEW SOLOTONE MUSIC SYSTEM

THE INDIVIDUAL SYSTEM THAT IS A FULL YEAR AHEAD

Solotone has scooped the industry with the individual music system that is next year's sensation TODAY.

Solotone alone offers these five exclusive advantages — each one means extra multiple profits for you.

FIRST WITH 6-INCH SPEAKER
The full 6-inch permanent magnet speaker reproduces faithfully all vocals and all bass notes.

FIRST WITH DUAL 5c and 10c COIN SLOTS
Tests have proven that the 10c coin chute increases your income as much as 30%.

FIRST WITH DIE CAST BOX
The case is made from metal having deadening qualities, eliminating all ringing or tinpanning.

FIRST WITH METER COUNTER
A meter placed in the adapter amplifier registers the plays for all the boxes in the location — a constant check on what your location is earning.

FIRST WITH CREDIT ASSEMBLY
Solotone alone takes up to 30 nickels or 15 dimes (in each box) at one time. Customers like it.

Get the full story on this multiple-profit maker. Write or wire today for complete Solotone plan.

THRU THE COIN CHUTE

CHICAGO CHATTER

One of the most thrilling and enjoyable visits we've ever yet had was going thru the big, new J. H. Keeney & Co. plant on the south side with Bill Ryan of the firm as our guide. In the first place you simply are bewildered by the size of this factory. Not only that but the fine and efficient method with which everything is arranged. And, brother, that isn't all, Jack Keeney has taken care of all future possibilities, too. He has one sweet hunk of ground just across the street which belongs to him and on which he can build and build and build. Those who haven't visited this newest of coin machine factories should do so — it's a real experience.

Andrew Monte of A. M. Amusement, New Orleans, La. and Dan Cohen of the same southern city rooming together at the Hotel Sherman this past week and buzzing those long distance lines continuously — but continuously. We heard from our New York offices that they had phoned there — and here we were getting calls, too. Say, Andy and Dan, have you guys got stock in the telephone company? . . . H. R. (Perk) Perkins who has had a long and very checkered career in the coinbiz is no longer with American Amusement Co. Perk is now seen here and there around the town and it is understood that he has been in some conferences with coinmen who want his services.

Gil Kitt, that handsome lad over at Empire Coin Machine Exchange, rushed right up to Michigan the moment he got word that some territory went down and remained up there practically all week. Now we look forward to again seeing trucks of merchandise rolling into his headquarters here. Just can't hold this guy down a minute . . . Jack Nelson has been searching himself footsore all over town and even into Oshkosh looking for commodious quarters for the new "Challenger '47" phono which he represents in this territory. Jack wants "showrooms and offices that are worthy of this new machine," he reports — and it looks like he'll just have to keep on searching and searching.

Al Sebring of Bell Products Co. tells me that he simply isn't sleeping nights anymore since he ran that "official showing" of the Beacon Coin Changer. There were so many distribs, jobbers, ops and manufacturers, too, who piled into Al's showrooms that he is still giving his short and sweet sales talk in his sleep. And, brother, has he got headaches as to which one to appoint where — dunt esk. In credit to Al's Beacon Coin Changer let it be officially known and inscribed here and now that the telephone company officials who came down to see it were tremendously (but, tremendously) impressed and tried to slug it to death. Not a single one of their slugs worked. (Ya got somethin' there, Al.)

Richard Cole of the U. S. Challenge Co. leaves his position as ad manager and enters into the sales division of the firm. H. M. Stillings will take over Cole's advertising work from now on in . . . R. W. (Dick) Hood of H. C. Evans & Co. suddenly pops back into town and we learn that he was down in Florida all the time . . . Roy (Monarch) Bazelon, Clayton Nimeroff and Vince Murphy in a huddle and talking in whispers. Wonder what Monarch has got up their sleeves now? . . . Oscar Schultz and Irv Ovitz of Automatic Coin Machine & Supply Co. running up and down the empty, big showrooms of theirs looking for a machine or two to sell. "Hey," yells Oscar, "didn't we get those three Vest Pockets in today?" — And the answer? Well, you guess .

Everyone over at O. D. Jennings & Co. thrilled by the way their distribs pulled that surprise tribute to Mr. Jennings. The men over in the factory even heard about it and were all smiles. The execs walking around with their heads in the air. And, believe you me, it is something when distribs flock together in this fashion to compliment one of the best of the manufacturers . . . Never, never, never — have I seen such busy execs as the men over at the big Rockola factory. Art Weinand and A. R. Kelso are simply on the go all day long. And with the way those Rockola distribs rush out there, day after day, it's a miracle to me how these two men can get all the work done that simply seems to pile up on their desks.

Grant Shay tells me that there's a surprise on the way . . . Phil Moses of Phillips Sales Co., Minneapolis, in town this past week and trying to buy and buy. Wonder if you were lucky, Phil? . . . National Industries is getting all ready to pop with their automatic theatre and their new music-on-film machine verra, verra soon . . . Saw Bernie Berman of B & B, Louisville, around the town this past week, too . . . They tell me that one of the largest radio manufacturers in town here is getting ready to pop with an electric hot dog machine and also with a juke box. Wonder how much truth there is in the latter?

They tell me that a certain Chicago record manufacturer may soon change the listing of the "big four" to the "big five." The records he's putting out are that good — and furthermore, the stars he's signing are stated to be the "real comers" in the business . . . Jake Briedt of U-Need-A Venders is in Chicago and they tell me that he's been doing a grand, grand job with his ciggy machines . . . Ray T. Moloney of Bally Mfg. Co. is still on the coast. Ray was greeted very warmly at an advance showing of the firm's new "Draw Bell" console in the Biltmore Hotel in Los Angeles . . . Quite a few of the music men are going to be present at the Ohio State music ops convetion, from what we hear. Looks like there'll be big doings at Cleveland.

The stories and items you read about Mutoscope are all false. Instead of 300 pinball machines being seized — it was only 9 arcade machines — and these machines are in open operation and licensed in New York City. We're waiting to hear whose face got redder when this is brought out in open court . . . Haven't heard from Al Stern lately . . . Both Dave and Nate Gottlieb are busy on telephones all day long due to the announcements on their grip scale. Brother, these men know how to announce something, believe me you . . . Jim Mangan is going to write something of real interest for the boys in the coinbiz who like to read about the better things in life — aside from business.

THRU THE COIN CHUTE

EASTERN FLASHES

Leo Knebel and Dave Margolin, Manhattan Phonograph Co. (Aireon distributors) overjoyed at the first delivery of their phonos in quantities, and now expect regular continuous deliveries. Leo claims the operators who have been calling daily for the news are now flocking in to see that they get their share of the phonos . . . Jake Breidt, U-Need-A Vendors, Inc., Union City, N. J. has been flying all over the country seeing his distributors. When you read this, he'll be in Chicago . . . Sid Abrams of Chemical City Music Co., Charleston, W. Va., in town looking for more arcade equipment for the coming season.

Harry Rosen and Teddy Polis from David Rosen's office in Philadelphia, Pa. chase around the city seeing all their friends and coin machine companies . . . Dan Subarsky, associated with Sam Kressberg of U. S. Challenge Co., seen in Hymie Rosenberg's offices talking about the old days . . . Bill Rabkin and Al Blendow of International Mutoscope Corp., working like beavers getting out more and more machines to their distributors . . . Stanley Feldman, Kingsboro Music Co., reports his 4 year old son is improving from a recent attack of paralysis, caused by a fall . . . Hymie Rosenberg in Chicago, and claims he will have an important announcement to make when he returns.

Bernie Wolfson, Runyon Sales Co. of New York, finally getting to a stage where he can relax for about 2 or 3 minutes every day. The record department being set up will be under the supervision of Johnny Holonka, relieving Bernie of that worry, and he has taken on additional office help to assist with the many details. However, he claims he has dropped over fifteen pounds during the past month. Maybe Wolfson would find the Catskill Mountains a desirable vacation spot at this time — oh yeah? . . . Earl Winter's (Modern Music Sales Co.) office is decorated with those colorful Vogue records, giving it a rainbow effect at the first glance. Nat Cohn, other member of the firm, away for a few days trying to lower his golf score.

Mr. and Mrs. Sam Yaras of Southwest Amusement Co., Dallas, Tex., spends a week in the big city . . . Calvin Goros, Commercial Amusement Service, recently discharged from the Army after a three year hitch, celebrating the arrival of a baby daughter . . . Mike Munves, as busy a coin machine executive as you'll find in the country, never too busy to entertain his out of town friends. And they're coming in to see him continually now, buying additional arcade equipment for the coming season . . . Sam Kramer, Interboro Music Co., takes a month off from his operations, and travels thru Canada . . . Jackie Berman and Sid Merenstein, Economy Supply Co., finally get their Baltimore offices organized, and inform us that everything's coming along in great shape.

Now that Al Schlesinger and Jack Fitzgibbons have been able to secure additional supplies of lumber, those Roll-A-Balls are really rolling off the production lines . . . Lou Hirsh, Silvertone Music Co., will be in Miami when you read this . . . Harry Wasserman, Commercial Music Co., suffering from a leg ailment . . . Charley Polgaar, Tri-State Distributing, divides his time between his Newark offices and the New York offices. From 9 to 12 AM, Charlie is with Warren Ryan in Newark — then from 1 to 6 PM in with Bill Blumenthal at the New York office. Charlie claims the routine is too strenuous so he takes off every Tuesday to go fishing

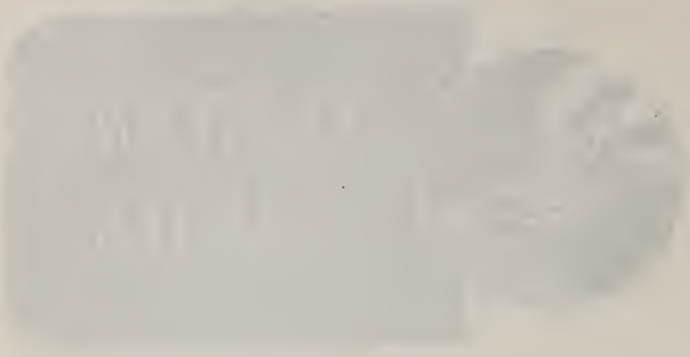
Never saw a happier combination than C. C. (Chuck) Greene who owns Stept, Inc., the music publishing house that is clicking with some sweet music right now, and Barney (Shugy) Sugerman of Runyon Sales Co. Saw both of them down at the La Martinique the other evening and Shugy proved himself one great dancer. (Claims there were dancers all the way back in his family. In fact, his great grandfather, he says, was a terrific dancer.) And that reminds me that Shugy has a poem about dancing that goes something like: "You can sing and you can dance . . ."

And, since we're talking about dancing, never saw anything to beat George Ponser of the Maplewood, N. J. Ponsers. That boy knows the difference between a rhumba, samba and a tango. Stopped the crowded Chanticler in Milburn, N. J. colder than a door nail the other Sunday evening by giving an exhibition of how the samba should really be performed. (Hey, Harry Williams, you've got a real challenger in another manufacturer). And, by the way, they tell me that Irv Kaye, who is George's partner in Amusement Enterprises, Inc. is no slouch either when it comes to shaking his hooves.

Seems like there will be plenty of those Measured Music boxes out in Jersey very, very soon . . . Also hear that one of the bigger tube manufacturers is getting all set to grab the tube business in this industry. He has his men out asking questions by the dozen . . . Saw Eddie Corriston the other night — looks good and looks to me like Eddie is taking off a little of that heft . . . Bill Bye of Emby Distributing Co., Philly, Pa. was supposed to be in town this past week — but disappointed us. Bill is always one of the most humorous of all the humorous coinmen.

They tell me that Teddy Blatt has taken on a non-selective wall box distributorship, too . . . We hear that one of Willie Blatt's sons is over in Jersey City operating music machines and reported to be doing very good. By the way, the kid's married — one of those British gals . . . Jack Mitnick is busier than a bumble-bee these days . . . Gang over at Musicraft Records celebrated the day Dave Quirk picked their new number as the "Sleeper Of The Week" — and called up to thank us.

H. F. Dennison of Personal Music Corp., Newark, N. J. out of town again for an extended trip to cover a great many cities with the "Phonettes" of the firm and Scot Allen holding down the fort while Dennison is away . . . Dave Rosen in town the other day to arrange to become "Czar" of the southern New Jersey territory as a distributor for certain lines — and understand that the other guys gave in to him. Atta, boy, Dave . . . The war's over. Believe me, it's official, now. There's Wrigley's Spearmint chewing gum in the subway venders again . . . Would anyone like to buy a duck? Just ask Bill Alberg of the Brooklyn Amusement Albergs — he's got 'em — the farmer.



THRU THE COIN CHUTE

CALIFORNIA CLIPPINGS

Al Sleight, Bally Manufactuing Company's regional district representative, held open house at the Biltmore Hotel here this past week. Al unveiled the new Bally console to more than 400 ops and distribs . . . Elsen Scanlan, just out of the Navy, is back on the job again. He's working for Claude Tomlinson of Visalia . . . Leo Lichtenstein of the Harlich Manufacturing Co. in town for a short vacation. Leo plans on returning to Chicago this week. "I sure love your California weather," said Leo, longingly . . . Add another Chicago vacation note: Mr. and Mrs. Ray Moloney of the Bally Manufacturing Co. spent several weeks in Palm Springs and Los Angeles. Ray came here for a rest with the missus.

Charlie Robinson of C. A. Robinson and Co. is getting set to start traveling again. Charlie is planning stops at Milwaukee, Chicago — but not McGovern's (Charlie says he absolutely will not stop there) and other points east. He hopes to bring back several carloads of new equipment . . . Lou Chudd, formerly of Pan-American Records, has gone into the business on his own. He has opened his place at 137 N. Western Avenue. The firm is known as the Gold Seal Record Co. . . . Ray Garrison, well known Phoenix op, in town to see the new Bally console.

Bill Happel, Jr., of Badger Sales, seen gazing fondly at his new building. Bill was among the more fortunate in having construction underway before the freeze was ordered. He hopes to be in his new place before many months . . . Pan American Records has just moved their offices and plant to 6245 Santa Monica Blvd. in Hollywood . . . Bill Wolf of the M. S. Wolf Distributing Co. has been named an exclusive distrib for Pioneer's new "Smiley." Bill advises that he's proceeding with his plans to completely remodel his Portland building, as well as enlarge and remodel his Los Angeles showrooms and offices.

Len Micon of Pacific Coast Distributors reports that he has now received the new H. C. Evans "Bangtail" F. P. and invites ops to come in and look the game over. Len adds that the latest word from the factory is that deliveries of the new machines will be made soon . . . H. A. Lucas of K. & M. Distributors plans to visit Omaha. He's covering the country making appointments of new distribs to handle the firm's platters, meanwhile Len Kelly and Fred Myers are resting up in preparation for another transcontinental sales trip soon . . . Jimmy Rutter of Operators Service plans on opening another shop to handle the many orders received for the horse race carnival machine he's manufacturing for the trade. An order for several of them has just come in from one of our Canadian neighbors.

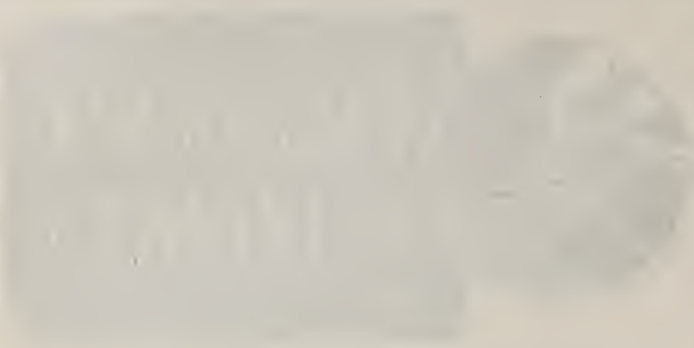
Bud Parr has returned from what was described as a "most successful" Eastern trip. Bud made a number of distributorship appointments for the firm's new timed music box and is reported to have sold more than 150,000 units. Bud plans on being Chicago-bound this week to close several additional deals . . . Some of the ops who came to town this past week looking for new equipment were: I. B. Gayer and Dwight Towne of San Bernardino; Ray Tisdale and Irving Morley of Glendale; Art Weiss, Arcadia; Johnny Nelson and Lowell Ayers of Inglewood; R. L. Browning, Long Beach; Harold Murphy and Jim Hume, Palm Springs; Anton Jeppesen, Maywood; Walter Murra, Downey; Scott Dreyer, Whittier; Ray Reynolds, Big Bear Lake; Roy Jones, Inyokern; J. H. Sheeter, So. Pasadena; Bill Knight and Frank Abbott, Alhambra; Fred Allen, Bakersfield; Sam Brown and Earl Cale of L. A.; Bernie Knott, Alhambra; G. L. Catlin, Montrose; Chris Torrez, Westmoreland; and Jim Scherer, Compton.

Ray Powers of E. T. Mape Co. says he's been given to understand that word will be forthcoming very, very soon on the new phono line the firm will handle. Ray explains that the shortage of parts was responsible for the delay in their announcement . . . Nels Nelson reports that he has sold over forty used phonos in three days and that he's in the market for used music machines of all kinds. Incidentally, Nels has the new "Phonette' on display in his showrooms . . . Coinmatic Distributors have just remodeled their offices in a modernistic vein. It seems as though all the lads along coinrow are going in for class and swank . . . Jean Minthorne seen rushing out to keep a date with the doctor. That little old flue bug got him. J. M. Harvey in animated conversation and passing out the new automatic Minthorne pencils. We got one, and they're good, too.

Jay Bullock, managing director of MOASC (Music Operators Association of Southern California), held an important meeting with Dick Gallagher, president of the assn., on several problems. "A meeting of all members is planned for the near future and will be announced shortly," Bullock declared . . . Paul and Lucille Laymon really rushed to get the invitations out to ops for the Bally showing at the Biltmore. The showing came up so suddenly, said Paul, that it was necessary to contact the ops by telephone and Lucille did just that. She was on the telephone all day. "I never talked so much in all my life," she explained . . . Jack R. Moore of Portland was in town to see the new Bally at the Biltmore . . . "Bally at the Biltmore" — it sounds like a title for a tune.

The new building of the Gold Coast Coin Machine Exchange will soon be completed, advises Elky Ray . . . Jack Gutshall has reason to be proud these days. It seems that Ben Ellison, Herb Jeffries and Leon Rene of the Exclusive Record Company have written a song dedicated to him. They've waxed it, and it sounds like a hit. Jack's name will appear on the disc . . . "Lights! Camera! Action!" were the familiar words heard recently at the Quality Pictures studio on Santa Monica in Hollywood. A new series of 16MM musical films are underway and release of these new subjects will be made in about two weeks, according to W. Merle Connell, production manager. "This group of artists were the tops in the entertainment world," reported Connell.

Chuck Hasting of Spotlight Records announces that the firm has moved its offices to 1446 Morningside Court in Hollywood



THRU THE COIN CHUTE

ST. LOUIS

Jimmy Dorsey's orchestra, soon to hit the Chase Hotel, will play host to St. Louis phono ops and their "missuses" this week. Been a long time since a national name band played for the boys . . . Coinmen are commiserating with Carl Trippe of Ideal Novelty Company over the burning down of the Ideal warehouse at 2201 Pine Street. Damage was $55,000, with nothing but the walls left standing. "Lucky our stuff was in the basement," growled Carl. Most of the merchandise consumed were games, one balls, shipping crates and cartons.

Arch Olinger gave out two boxes of cigars over birth of a baby girl. Marie is the name . . . Many ops have turned to premium deals and sales boards due to lack of equipment, according to Art Paule of Ideal Sales Company, salesboard jobbers here. Art is quite pleased over the bigger sales field created . . . George Ogilvy is back on the routes, a bit thinner from many months of Army service. He's concentrating on the "baseball beach" near Sportsmen's Park with a long string of pinball equipment.

Eli and Joe Nissenbaum, veteran operators, each have introduced a son on their routes, each son having discarded the olive drab at the same time. The young Nissenbaums will soon take over, according to Joe, and let the old men rest.

Vincent Sieve, West St. Louis operator, reports new government housing projects booming his phonograph play. Spots formerly off the beaten track are now in the center of brand new neighborhoods . . . East St. Louis, Ill., sends the word that Art Schooley, pugnacious phono op, is back in civvies after a two year stretch of fighting for Uncle Sam.

St. Louis' only flying operator, Bill Hollenbeck, reports he has sold two airplanes and is working up toward a big ex-Army job to carry the family. Bill headquarters in Cape Girardeau, where the Army is selling 3,000 used trainers . . . Walter Bowman of Peerless Novelty is getting a lot of kidding over his stock market speculations. Once a hobby, this is now serious business with Walter, who is always deep in financial journals between phonograph stops.

Elmer Scheu and Randy White, phonograph and pinball ops who went into service together, were discharged simultaneously and picked up routes "farmed out" during the war . . . Another returnee is Roy P. Maley, who set up many locations on Army bases near Belleville,

MINNEAPOLIS

Frank Koppel, just discharged after more than three years' service with the military is back on the job with Mike Krakes, Minneapolis operator. And is Mike happy, for he now has a complete crew . . . Hank Vangen has just been discharged after three years' service and is back on the job too, taking over complete charge of his brother's route. Len Vangen expects to step out of the business entirely . . . Mr. and Mrs. Gus Swenson and son, of Detroit Lakes, spending a few days in the Twin Cities and will take a trip thru Wisconsin before returning home.

Jovial operator of Grand Forks, N. D., who goes by the name of Bun Couch, is spending a week here with his wife. Just a little vacation which Bun decided Mrs. Couch needed. Incidentally, Mrs. Couch is reported to be the best pie baker in the State of North Dakota . . . Al Strauts, for many years a local resident, but who has been making his home in Montevideo, Minn., has just returned from service and very happy to be back on the job again.

C. H. Potter of Fairmount, Minn., one of the largest coin machine ops in the territory, was the victim of a fire which razed his office and warehouse on a recent Sunday. Cause of the fire is not known nor has the damage been estimated, but the toll is expected to be quite heavy . . . Jack Lowrie, Lake City, Minn., has gone on a trip for several days. Nobody knows where. Just getting away from it all .

Fred Gates, Minneapolis op, will soon announce the grand opening of his new record shop, the Sun Music Company. Motto of the firm is, "Every Record Under the Sun" . . . Pat Grant, ex-service man, isn't letting any grass grow under his feet, according to the many locations he has been getting . . . Bob McGowan of this city was seen sitting back dreaming about the fishing season which opens here soon . . . Mr. and Mrs. Allen Kirt of Deer River, Minn., in town making the rounds . . . Phil Smith, now residing here, is operating a route in Iowa.

Sherman Karon, formerly connected with the Mayflower Distributing So., St. Paul, is now seeking a new connection . . . Mr. and Mrs. Ike Sundem doing some post-Easter shopping here. They're from Montevideo, Minn. . . . Paul Hayes of Rochester, Minn., is recovering from injuries sustained in a recent auto crack-up . . . Frank Jaunko, another former service man and ace mechanic in the Twin Cities, has opened his own radio shop. Good luck! .

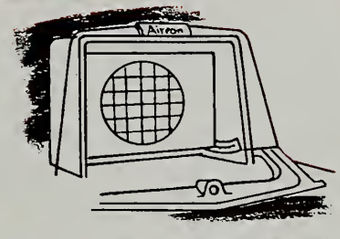
Only Aireon 'Tailors' Music TO FIT ANY LOCATION!

NO "DEAD SPOTS" REGARDLESS OF SHAPE OR SIZE OF ROOM

AIREON AVC CONTROLS VOLUME AUTOMATICALLY, DEPENDING ON THE NOISE LEVEL OF ROOM

EXCLUSIVE "TONAL ARCH" TAILORS TONE TO SHAPE AND ACCOUSTICS OF ROOM



Mounted conveniently to eliminate interference, Aireon's Speaker unit is instantly adjustable to any one of *15 positions*. Music reaches every corner or location.

MUSIC CAN BE DIRECTED TO FARTHEST CORNERS

Aireon's own specially-designed 15-inch dynamic speaker—the perfection in tone quality. No reproduction of sounds outside of music range.

Handy tone, range and volume control dials quickly adjust music to accoustics of room and to pre-set volume level desired.

No two locations are exactly alike in shape, size, height, accoustics and noise level – but Aireon, the *Electronic* Phonograph has exclusive features which produce the ultimate in music in *any* location. No Operator who places Aireon in his top locations need fear losing them – because no automatic phonograph can equal Aireon Electronic music!

marks the spot...

WHERE *NET* PROFITS BEGIN

EARNING-POWER is only half the story of pin-game profits. Low operating costs are equally important. In Bally's new post-war games you get an abundance of the color and flash, the fast action, the thrills and suspense that add up to top earning power. And you get the two factors that insure lowest operating costs. FIRST, new precision techniques mastered during the war, when the Bally plant won the Army-Navy "E" Award for "excellence in production"... improvements in design and construction that guarantee long life on location. trouble-free operation. SECOND, to speed up adjustments and routine service, Bally offers the new, exclusive "get-at-able" mechanism housing... the handy swinging shelf feature of VICTORY DERBY and VICTORY SPECIAL... the neatly packaged mechanism of SURF QUEENS. See Bally's new hits at your distributor today. You'll want to Bally-brighten your locations as quick as you can get delivery on these new profit-proved games.

VICTORY DERBY

ONE BALL MULTIPLE PAY TABLE

Packed with all the profit-proved features of Bally's famous pre-war multiples... plus new play-provoking ideas that are pushing profits to a new all-time high! Several hundred VICTORY DERBY games on location two to twenty weeks are consistently topping all previous collection records of pre-war and war-time operations. See your distributor today and arrange for early delivery of VICTORY DERBY.

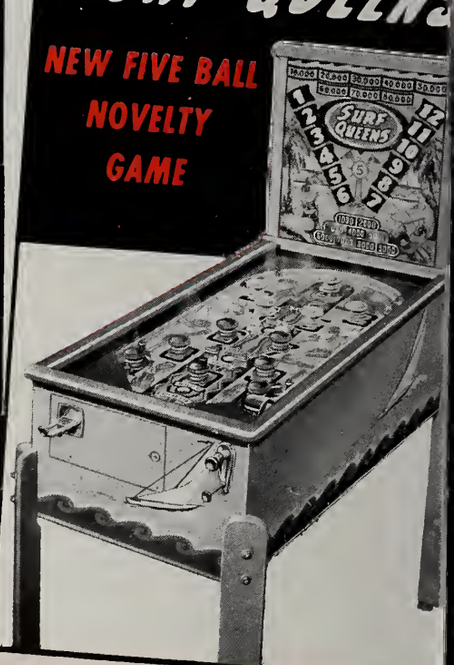
VICTORY *SPECIAL*

ONE OR FIVE BALL REPLAY MULTIPLE

Bally's big, new VICTORY SPECIAL is your post-war profit insurance in replay territory. Quickly convertible to one or five-ball play . . . and a fast money-maker either way, VICTORY SPECIAL features all the famous features of Bally's pre-war multiples... plus new play-stimulating ideas that insure plenty of repeat play. For top profits in replay spots order VICTORY SPECIAL today.

SURF QUEENS

NEW FIVE BALL NOVELTY GAME



Make a date with Bally's new sparkling SURF QUEENS—fastest five-ball novelty game ever built. Designed by a practical operator known for his ability to pick winners, SURF QUEENS is packed with all the elements of a money-making game... combined with new angles that will bring the slowest novelty spots back to life in a hurry. Order from your Bally distributor today.
